In regard to proposed Senate Bill 44, where as all State license requests should be submitted electronically:

In my job, most of these licenses already use this system, and to get everyone on the same page just makes sense. I know when submitting electronically, there are less errors, less duplicates, and filing is so much easier. Records are then more easily obtained as well.

This bill just gets our state up to date and more organized.

Thank you for allowing me to voice my option in regard to this bill.

Respectfully,

Joni Regula
