(B) A retail food establishment or food service operation
may allow a person to bring a dog in an outdoor dining area of
the establishment or operation in accordance with this section.
However, if the dog is a service animal, no establishment or 13 14 15 16

operation shall refuse to allow the dog in the outdoor dining 17
area unless such refusal is authorized under federal and state 18
laws governing service animals. 19

(C) The director of agriculture and the director of health 20
shall adopt rules governing dogs in an outdoor dining area of a 21
retail food establishment or food service operation that do all 22
of the following: 23

(1) Prohibit an employee, while working at an 24
establishment or operation, from intentionally touching a dog; 25

(2) Require an employee who is serving a dog food or water 26
to serve the dog's food on disposable single-use dining ware and 27
the dog's water in a single-use container; 28

(3) Require an employee to wash the employee's hands 29
immediately if the employee does either of the following: 30

(a) Inadvertently makes contact with a dog; 31

(b) Cleans up an area where dog waste was present. 32

(4) Require an establishment or operation to post a 33
clearly visible sign informing patrons that dogs are allowed in 34
the outdoor dining area of the establishment or operation; 35

(5) Require an establishment or operation to have an 36
outdoor entrance to the establishment's or operation's outdoor 37
dining area; 38

(6) Require an establishment or operation to notify the 39
applicable local board of health at least thirty days before 40
implementing a policy to allow dogs in an outdoor dining area; 41

(7) Require an establishment or operation to adopt a 42
policy that requires patrons to keep their dog on a 43

the dog is in an outdoor dining area; 45

(8) Require an establishment or operation to do all of the 46

used solely for cleaning an area where dog waste is or was 59

(d) Keep stanchions or cones on the premises of the 61
establishment or operation to be used to isolate an area where 62

a retail food establishment or food service operation is liable 72
for any damage the dog causes in the outdoor dining area of the 73
establishment or operation. 74

(E) (1) No retail food establishment or food service 75
operation shall violate any rule adopted under this section. 76

(2) A board of health may order the suspension of a retail 77
food establishment's or food service operation's authority to 78
allow dogs in the establishment's or operation's outdoor dining 79
area if the establishment or operation violates any rule adopted 80
under this section. 81

(3) Before issuing an order, a board shall give the 82
establishment or operation written notice specifying each 83
violation and a reasonable time within which the establishment 84
or operation must correct each violation. However, if a 85

health, the board may order the suspension of the retail food 87
establishment's or food service operation's authority to allow 88
dogs in the establishment's or operation's outdoor dining area 89
without giving written notice or affording the establishment or 90
operation the opportunity to correct the violation. 91

(4) If a retail food establishment or food service 92
operation fails to correct the violation in the time specified 93
by the board, the board shall provide written notice that the 94
board is suspending the establishment's or operation's authority 95
to allow dogs in the establishment's or operation's outdoor 96
dining area. The board shall include in the notice the procedure 97
for appealing the suspension. The retail food establishment or 98
food service operation may appeal the suspension by giving 99
written notice to the board and specifying in the notice whether 100
a hearing is requested. 101

(5) An appeal requested under division (E) (4) of this 102
section shall be conducted in the same manner as an appeal 103
requested under division (D) of section 3717.29 of the Revised 104
Code. 105

food service operation's authority to allow dogs in the 107

so for the following time periods: 109
