

HB 127 Proponent Testimony by Bill Woodward

I am in support of HB 127.

It is very concerning this practice continues throughout our state and others. When other contractors find out that, you can con and cheat on certifications, when will it stop? Will it stop with Electricians, plumbers, doctors, airplane pilots or lawyers?

How would you feel in your profession and putting in the time, training and money, just to find out you could have bought your certificate or diploma for one hundred dollars?

Plus, this is putting our children, the general public and our co-workers in danger.

I also believe that we need penalties attached to this bill in order to help stop this corruption.

Thank you for your time.
