

Chairman Coley, Vice Chair Uecker, Ranking Member Schiavoni, and members of the Senate Government Oversight Committee, thank you for the opportunity to present House Bill 359. My name is Brandon Tolle. I am a Junior at Columbia High School, in Lorain County. I am also a part of Boy Scout Troop 176 and a Life Scout pursuing the rank of Eagle. I appreciate the time I have today to present you with my testimony.

House Bill 359 is symbolic in nature, not only for myself but for the State of Ohio as well. This bill is important because it provides ceremonial guidelines for retiring our state flag. Through this bill, the Ohio State burgee will be able to be properly and officially retired. This bill will give Ohio something that many other states already have, and it allows the average person to respectfully retire the flag that represents not only them, but the great state we live in. A bill like this allows us to pay our respects to a tattered flag that has represented our state, and our ideas in years in which it was flown. The Ohio flag is unique in its shape from other flags in the United States however, I feel it still deserves to be respected like any other flag out there.

Over the past several years, the lack of a way to retire the State flag was shown to me in subtle ways. The first of which was at my hometown VFW. I was participating in a flag retirement ceremony for the US flag and our State flag, after the speech and separation of the parts of the flag the US flag was placed into the fire. When it came to our State flag, a few words were said before the flag was dropped into the fire.

Several years later I attended a small informative program for flags, during this time we learned that the official way to fold our very own state flag had been an Eagle Project from 2005. After the class was over I made it a point to ask whether or not there was a way to retire the Ohio flag. I was simply told that there were several ways, however none were official. After that moment I knew what I could accomplish, not only for myself but, for the state as well. That

brings us to today, I have pursued my idea to this point in time. I appreciate your attention to my testimony today. I would be happy to answer any questions you may have at this time. Thank you, Mr. Chairman
