To the Ohio State Senate,

On March 22, 2017, I was on my Rumpke residential route in Reynoldsburg, Ohio. I had just stopped the truck and walked behind it to get the trash toter. I turned to step behind the truck and dump the toter.

That is when I heard and saw a car coming fast. I ran for cover, up the driveway as it hit the back of my truck. That car hit the truck real hard and I would have been severely injured had I been behind the truck at that moment.

Thank you for considering this Senate Bill to protect us while in the roadway and doing our job.

Frederick Barton
