Hi my name is Nina Davis and I was injured in an auto accident on September 1th of this year. The accident was in Springfield Ohio and I received emergency care at a local hospital in Springfield. I am a resident of Columbus Ohio and shortly after my accident I did receive calls to receive a free exam for my injuries associated with the car accident. I really did not know what to do as I was a passenger and simply having a lot of pain and really did not have a family doctor to go see.

I must say that I come from a family with a history of drug abuse, pills mostly so I knew that I wanted to steer clear of any kind of treatment that had to do with pills. I got a call from Dr. Fonner's office and the representative was so helpful in explaining what they had to offer and that Chiropractor's don't prescribe pills. That was what I was looking for so I mentioned this to those I was involved with in this accident and we all went in for an evaluation. The atmosphere in the clinic was so professional and helpful and after we left I felt better.

I have been treating now for sometime and I have continued to get better and better as my pain goes down and I return to normal. I am so thankful that I got that call that day it gave me a choice. This is something I was not aware I really had a choice of treatment. The hospital told me to follow up with my family doctor but I really don't have one so this has been a blessing to me.

With my family history of problems with pills and addiction I am happy I got the phone calls and the choices that came with those phone calls.

Thank you

Nina Davis
