

I am writing this in major support of House bill 401!

My name is Brandon Martin, Attica, Ohio, my family and I live about 2 miles north east of Attica, and would be surrounded by 6-7 600+' tall turbines. My wife and I planted our dreams in this little community, and are very much invested here with the businesses that we own and operate. We have wonderful supporting family and friends, 2 small children, 2 niece's and a beautiful country homestead, that we built with our own hands. With the incredible information out there on the negative impacts of these turbines, I can't believe anyone would support them, unless you can't understand simple facts and are full of greed! We vote and we pay our taxes, so yes "We the People" must deserve a vote on what happens in our town and surrounding communities!! This must pass to protect the dreams of many!!

Thanks. Brandon Martin 4197060943
