My wife and I have lived in this location since 1978. We like the quiet rural atmosphere and the great sun sets. We especially like the resurgence of the eagle population. Now they want to build 600ft. wind turbines, not just in front of us, but also behind us.

All zoning rights have been moved to Columbus. It is not right that some one who is not impacted by these turbines, get to call all the shots.

People in places affected should be allowed to make these life changing decisions. The bureaucrats who worked to subvert our property rights, don't have to live with all the negative effects of wind turbines, They don't have to worry about, health and safety issues, nor will thier property values take a nosedive.
