Dear Mr. Schreiner,

I'm writing in reference to the proposed construction of wind turbines in Sandusky county and northwest Ohio. As a native Ohioian, I strongly object to the idea of the project moving forward in Ohio. After listening to the pros and cons, there is no doubt that it will do no good for our state. I could go on to list reasons that have swayed me to make this decision, but I feel it would take too much time to list. So, when you address our law makers and House Representatives I ask that you make my concerns and disapproval noted. Thank you for your time regarding this matter.

Sincerely,  
Cheryl Kenfro, Clyde, OH
