To: The Ohio General Assembly  
From: Dorothy E. Berg and Herbert Robert Berg  
RE: HB 401 and SB 234

Dear Representatives and Senators of Ohio:

We are encouraging you to pass the "Reineke Referendum" to allow local voters in individual townships to vote on industrial wind projects approved by the Ohio Power Siting Board.

It is extremely significant that no local vote is presently allowed by Ohio law. If the wind farms are allowed to be constructed in areas which do not want them, the public will suffer while big corporations control our landscape.

As residents of Eden Township we currently enjoy living in a beautiful agricultural/residential area home to not only people, but also wildlife including many deer, eagles and songbirds. Industrial wind farms would impact our way of life with their massive towers, blinking lights and vibrations. Our health, wells, property valuations and peaceful living would be affected. These eyesores would also impede medical flights needed in case of accidents or emergencies.

Let the wind farms locate in areas suited to them, not where they'd do harm to residents.

Thank you for your attention and favorable vote.

Sincerely,

Dorothy E. Berg and Herbert Robert Berg
