

#43

To: Ohio Power Sitting Board
From: Len and Bev Kubitz
Date: November 13, 2019
Subject: "Keineke Referendum", HB401 and SB23

Sirs:

This "referendum" is very important to us!
I do not want to live across the street from
these industrial monsters! Our country living
is very peaceful and serene!

Please give us the right to vote, it is very
important!

I moved out to the country for peace and quiet,
not to see or hear big turbines or the noise they
make plus maybe screw up the water table. I
like our dry yard plus a dry basement. Turbines are
no substitute for nuclear power plants.

They are clean and silent, and safe.

Thank you for taking the time to read this.
