

Dear Nino Vitale

11/14/19

#31

Am writing this letter to you to express how
I and my family feel about the MASSIVE wind
turbines being put up in our county (Sandusky) + our
small beautiful town, without any voting being
done? I don't understand how a BIG company
can go ahead + be approved to do so without
the residents having a say so? One farmer
is for it to be placed on his land for a so called
LARGE amount of money (Greedy) yet his own
personal decision + greed will affect MANY
families in the surrounding area of his land.
These turbines have health affects on
people + animals + it will DESTROY our
wells + will be a HUGE danger to farmers
near them.

I believe it's only RIGHT + FAIR for the
residents of the counties being affected
by the installation of these turbines to
have a voice + be able to VOTE for or
against them. It's just WRONG for
these to be approved by 1 farmer's choice.

I hope + pray this all works out that
myself + my family will be given the
CHANCE to vote AGAINST the wind turbines.
I don't think all others who oppose this!
Wind turbines are OK but NOT in rural
+ populated areas. Thank you!

Sincerely

Vicki Dendiger
