

Hello,

I am writing to you as someone who is currently in quarantine for covid-19. I have the virus. I will be out of quarantine in four days. This virus is not something that we should have ever shut down for. We should never shut down again. I acquired this virus at a place where distancing and masks are required. It is a virus, and nothing, no measures taken are going to stop it. Over 99% of the people who get this virus recover. I am going to be one of those people. There is now no need to wear a mask or distance as I am developing antibodies.

I've worked in Washington DC. I've collaborated with Congressmen, and spoken to the former President of Mexico... and through all of that bureaucracy, the most egregious oversteps that I've ever seen by governments is what is going on right now. Governors cannot make laws, only legislatures can. Threats and fines don't work. Restricting access does not work. We, as a people, are fed up with the lack of action by the legislature here in Ohio. We have reached out, we have pleaded with them, we have contacted stores and other locations. We need you to do something. HB 618 is a start. Do something, before the citizens of Ohio are forced to do something themselves Do the right thing, and listen to the people you serve. Vote yes on HB 618.

If you have any questions, please contact me at 419-571-6808.

Thank you,
Danielle Wright
