

I am writing to ask that you vote YES on HB 618 to limit the power of the governor and health director.

These measures are ridiculous and are impacting every Ohioan.

I am 80 years old and I do not support lockdowns, curfews, children wearing masks, or remote learning. My grandchildren's education is being ruined over this nonsense and I demand that it stop. My brother in law died alone in a nursing home and my daughter's small business has been ruined.

I am old enough to be impacted by the virus if I get it and I choose to live my life in full, I will not be told what to do and where to go by a this governor, I will not stop seeing my family and I am having a full Thanksgiving dinner with all of my family, I'll be damned if I have some man in Columbus tell me otherwise.
