

Senator Wilson

I am asking you to support SB 234. There are 3 wind turbine projects pending in Huron, Seneca, Sandusky, & Erie counties.

Three more projects are proposed for these counties & Crawford county. Lake Erie is slated to have 1500 turbines if that project is approved. Our area would be saturated.

The people living in any area where a project is proposed have the right to vote if they want this industrial project or not.
