Senator Steve Wilson  
Chairman, Senate Energy & Public  
Utilities Committee

I am sending a second letter to the  
Ohio Congress concerning bills HB 401  
and SB 234.

I understand these bills allow  
local people to decide approval or deny  
the wind turbine projects.

Some of the residents were  
misinformed by the turbine  
companies and signed binding  
contracts. Allowing them to vote,  
now knowing the full truth, will  
render these contracts useless for wind  
projects.

I am very concerned, living in  
Bellevue, over a year. We already  
have water issues such as flooding.  
Underground water pressure reining  
my foundation doesn't need to be  
another threat. It has happened  
to some of our residents just outside  
city limits.

I'm hoping your committee  
will present bill SB 234, with the  
understanding people need the right  
to vote on issues affecting their lives  
and livelihood.
