

To Dennis Schreiner

My name is Gary J. Lescallett, I live at 3544 E. Co. Rd. 6, Tiffin, Ohio. (Address) Eden Twp., Seneca Cty.

I AM writing in support of Senate Bill 234, the right to vote on whether a wind turbine project is built in Eden Twp. I live within the foot print of this project, which will affect my families safety and health, property values, possibly air well water quality, and living in a quiet unobstructed rural community.

Eden Twp. is a zoned twp., with rules and laws to protect the type of environment and property rights we are entitled to.

5-Power wind turbine project is an industrial project, not agricultural. I feel as though I should and all other residents of Eden Twp. should have the right to vote on these large projects, whether we want them or not.

Thank you

Gary J. Lescallett
