

Dear Senator Wilson

256

I'm writing to voice my support for SB234. I believe that I as a tax paying citizen should have a vote on issues affecting & impacting the living conditions where I reside, pay taxes, & spend my hard earned money.

I am referring to the wind turbine projects that are slated for Seneca, Huron, & Sanduky counties in Ohio. In my opinion, they are a waste of taxpayer money, being as they are heavily subsidized by our government.

They will never pay for themselves. Who will be held accountable to maintain these monstrous structures? They are NOT environmentally friendly. They have a huge footprint & how much oil is required for their motors? I have read of the problems of leaking huge amounts of oil into the ground. They are an eyesore at 600 ft. They will interrupt the migratory bird patterns. These are my concerns.

I believe citizens should have a voice on where these turbines are built, how tall they are, & other issues such as setbacks etc...

I ask for your support of SB234. Thank you.

Sincerely

Geralyn Evert
