

Senator Steve Wilson, Chairman
Senate Energy and Public Utilities Committee

Senator Steve Wilson,

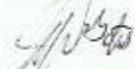

I am respectfully asking you and your colleagues to support SB234.

This referendum would give a voice to the people of local townships who will be living within close proximity to these turbines. These will affect our wildlife, our water supplies and our landscape. Please allow us the chance to vote.

Apex has increased these turbines to almost three times their original height. They are too close to our homes. Many of us live merely feet outside of the "danger zones" of these turbines. I fear for the health and safety of my children.

Please give us the chance to protect our families.

Sincerely,

Jeff Gates
