Re: SB234 48

Senator Steve Wilson
Chairman, Senate Energy + PUC

Dear Senator Wilson:

I am in favor of SB234. I want to have a vote on what effects me and my township.

Just as we as homeowners need to comply with building codes established by my county or township, so should wind turbines be regulated by the citizens of that area. These turbines have repercussions on landowners neighboring the turbines!

The building of these turbines will have detrimental consequences on our roads, health + environment for years to come!

Sincerely,

Margaret Lloyd
