Senator Steve Wilson
Chairman
The Ohio Senate Energy and Public Utilities Committee

Ref: SB-234

Dear Senator Wilson,

I am writing this letter to let you know I am in favor of passing SB-234, to allow voters in my township, as well as those in other townships in Ohio, to determine if industrial wind turbine projects should be completed. We, as property owners and citizens of Ohio, should be allowed to voice our assent or descent regarding this volatile issue.

The placement of wind turbines in our vicinity will impact our living conditions as well as those of the wildlife in our area. They will drastically affect our property values, also. Therefore, it should be our decision if they are to be allowed in close proximity to our homes.

I respectfully submit this letter for your consideration.
