

February 10, 2020

Dear Chairman Wilson and Members of the Ohio Senate Energy and Public Utilities Committee -

As Ohioans concerned about climate change and the Buckeye State's transition away from fossil-fuels, we write in opposition to Senate Bill 234.

Ohioans have proven that clean energy is here to stay and our families and businesses want policies that create the best environment for new, and bigger, investments in clean energy. We want minimum standards for utilities and policies that empower customers to partner directly with renewable energy companies to build their own clean energy projects.

As Ohioans who embrace our state's spirit of innovation, and acknowledge our responsibility to transition to clean energy, we urge rejection of SB 234.

Thank you.

Sincerely,

Michael Ahern
