

Nationally, HB6 is known as the “worst energy bill of the 21st century<sup>1</sup>”. Not only is this shameful for the state of Ohio, the citizens and institutions are literally paying for this awful legislation.

- HB6 costs the average Ohioan \$7.01 per MONTH.<sup>2</sup>
- HB6 destroyed the renewable energy and energy efficiency programs – taking our state back to the dark ages, rather than embracing the future and creating jobs.
- HB6 is currently the subject of a federal investigation, with clear linkages alleging this was bought and paid for from First Energy.

What else do you need to hear? It’s time to start fresh and repeal this stain on our state. As a mother and a lifelong Ohioan, I urge you to do the right thing and take action on this legislation immediately.
