

## **HB-6 Testimony of Day Thomas Stephens**

HB-6 is the product corruption and was used for mechanism to steal Ohioans. Speak of the Householder was the kingpin and had accomplices in and out of government. Their actions have rendered a permanent stain on the legislated branch of the state government.

The attempt to repeal the corruption-laded bill is being stalled and is no progressing. The autocratic leaders of the house seem to believe that if they stall long enough that Ohioans will forget about it – a silent filibuster won't fly here.

65% percent of Ohioans want HR-6 repealed now not after the election and will not tolerate the actions of the house to stall the house vote. If repeal is denied in the next 14 days, the uproar will go to the polls and take their revenge voting out the most of the 99 incumbents and bring in better replacements who will not play games and end this fiasco. Tenure is not relative, it is a simple choice: no repeal, no more Rep.
