August 11, 2021

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is William Pfeiffer and I am a director of sales in the hospitality industry and also a Navy Veteran. The reason I support House Bill 248 is because I believe in the US Constitution and the Bill of Rights. Mandatory vaccines violate our Medical Freedoms.

It is a fact that the COVID injection has not been in a long term trial to evaluate the risks vs benefits. The "vaccine" has been rushed not like vaccines in the past that have taken years thru clinical trials.

No one can guarantee this is safe or effective. There is no liability to the Pharmaceutical companies and or government. They will not take responsibilities for any adverse reactions or death.

I am a very healthy person and believe in my own immune system. This virus has a 99.5% survival rate for someone with my medical history and age.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248

William Pheiffer
