

**Testimony of Edward and Carolyn Kalb
Seneca County, Ohio
In support of HB-118
Ohio House Public Utilities Committee
March 9, 2021**

Chairman Hoops, Vice Chair Ray, ranking member Smith, members of the committee, We write as proponents of HB-118.

We think citizens should have a vote on the building and a need to be informed on what is being built in our backyards.

The manufactures safety data should be available to the general public. Our property value and rural life will be affected.

Big money and access to government subsidies should not be allowed to push this through. They don't live in the area and will walk away when problems occur. Their landscape and property are not being hurt.

A state agency with no connection to the area should not be allowed to make decisions on what happens in our backyards.

Just because there are so few people involved doesn't mean we should have no say.
