In support of SB-52
Ohio Senate Energy and Public Utilities Committee
March 9, 2021**

Chairman Peterson, Vice Chair Schuring, ranking member Williams, members of the committee, I write as a proponent of SB-52.

I urge the legislators to vote for referendums in SB52. I live in Flat Rock Ohio, and I am not content to be surrounded by these behemoths.

I have great concern for the water table, with such enormous machines, disturbing the karst. This is sinkhole country. Don't contaminate the water.

I know our eagles are at risk. There is noise that needs to be considered. Please put this referendum through and give us a voice.

Thank you for addressing this crucial issue.
