

I applaud and support HB 245 that you have sponsored. Protecting children from adult entertainment is absolutely a priority now more than ever!!! Now it has come to my town where our city council has recklessly given permit to a Pride Day Fest " for the family" at our local Walnut Beach public shore park. Council has ignored concerned citizens voicing our solid and documented exceptions based on Pride Inc public facebook bio of performers (which is so extremely pornographic - I hesitate to even direct you to it for concern of infecting your own computer). I as a voter approve HB 245!
