

Our family is negatively impacted by our City Manager's decision to allow a 5+ hour "all-age" drag show at our city's public beach and playground on June 15th 2024 12noon- 8:30pm. Not only are ALL children and families utilizing Ashtabula City's only public beach subjected to public open-air drag performances but our own children cannot play in their own backyard during the day because our backyard overlooks the area where the 20'x30' drag stage will be set. The drag music and commentary will likely be heard from inside our home. We should not have to take our family and leave our own property to avoid inappropriate adult activities in order to protect our children from early sexualization from adult cabaret acts. The families, children, and visitors enjoying our public natural resource should not be forced to be exposed to adult content. Please protect children from this and Pass HB 245.
