

Members of the Ohio House Homeland Security Committee,

Thank you for your time and consideration in passing HB No. 287.

I ask that you pass this bill out of committee. The proceeds from the license plates that are ordered will help our small community support youth sports. Our recreation commission is a true non-profit, with no Board members receiving any salary. Additionally, all of our sports are open to all children, no matter their skill level.

A license plate is a voluntary purchase, that will not cost the residents of Terrace Park anything, unless they voluntarily choose to support the Terrace Park Recreation Commission. Terrace Park, due to its great schools and proximity to parks, is generally filled with families and children. I expect that many drivers from outside of Terrace Park will also purchase this plate to support their Grandchildren, former neighborhood, etc.

I ask that you allow all drivers in Ohio the option to purchase this license plate.

Thank you for your time and attention to this matter.

Maxwell D. Kinman

Terrace Park Resident and Terrace Park Recreation Committee Board Member (Baseball)
