Cincinnati

Executive Director

Stephen C. Landerman

Members of the House Insurance Committee:

On behalf of the Executive Committee of the Ohio Orthopaedic Society please accept this letter as evidence of our strong support for HB130. This legislation exempts healthcare providers from prior authorization requirements when certain conditions outlined in the bill are achieved.

This bill will allow patients to receive needed treatment in a timely manner which will increase the likelihood of satisfactory outcomes.

If you have any questions or need additional information, please contact me or our Executive Director.

Jason Tank, M.D.
