Proponent Testimony on HB 79

Dear Chair Stein, Vice Chair Blasdel, and Ranking Member Weinstein,

Attached, please find a letter signed by 8 businesses, trade associations, and employers with facilities and significant interests in Ohio in SUPPORT of House Bill 79.

These businesses recognize that energy efficiency programs are good for all Ohio energy consumers and urge you to move expeditiously with the bill to create local jobs, save households and businesses money, and ensure that Ohio remains a competitive place to live and work. The complete list of signatories is provided below.

Please do not hesitate to contact me should you have any questions or if you would like to connect with one of these companies directly.

Thank you for your leadership on this important piece of legislation.

Sincerely,

Deana Dennis
