

Testimony for Ohio House Finance Health & Human Services
Subcommittee

March 16, 2023

by William Wallace

Dear Chair and Committee Members,

I am one of many Ohioans without dental care. I am over seventy, retired and on fixed income. The problem is I am frustrated by the fact that while I have Medicare it does not cover dental. And it is dental care and having access to dental care that people need. It appears to be a serious issue in our state.

We are advocating that our elected officials increase affordable dental care for all Ohioans who are low and moderate income.
