

**Veterans and Public Safety Committee
Opposition Testimony to SB58
Submitted by Ann Shroyer
April 18, 2023**

Chair Hoagland, Vice Chair Wilson, Ranking Member Craig, I am submitting opposition testimony to SB58, as it is yet another solution in search of a problem type of legislation. There is no need to preempt local government from passing insurance requirements when such a requirement would only encourage more safe usage of firearms and safe storage of firearms in this state. One only has to look at the video of a preschooler firing a handgun in a living room shortly after jumping on the couch where they found it to recognize the dire need for more safety and liability minded gun owners.

Thank you for your attention and please do not waste any more time on this bill that only continues the guns everywhere laws of this state.
