To amend sections 3301.079, 3302.03, 3302.039, 3310.033, 3313.6412, 3314.03, 3314.262, 3317.022, 3317.11, 3326.15, 3328.22, and 5502.262 and to enact section 3313.6027 of the Revised Code regarding blended or remote learning models for the 2021-2022 school year, the state report card, emergency management plans, withdrawal of untested students from internet- or computer-based schools, the Third Grade Reading Guarantee, high school financial literacy instruction, Educational Choice and Cleveland Scholarship payments, operating subsidies for educational service centers, and to declare an emergency.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 3301.079, 3302.03, 3302.039, 3310.033, 3313.6412, 3314.03, 3314.262, 3317.022, 3317.11, 3326.15, 3328.22, and 5502.262 be amended and section 3313.6027 of the Revised Code be enacted to read as follows:

Sec. 3301.079. (A)(1) The state board of education periodically shall adopt statewide academic standards with emphasis on coherence, focus, and essential knowledge and that are more challenging and demanding when compared to international standards for each of grades kindergarten through twelve in English language arts, mathematics, science, and social studies.

(a) The state board shall ensure that the standards do all of the following:

(i) Include the essential academic content and skills that students are expected to know and be able to do at each grade level that will allow each student to be prepared for postsecondary instruction and the workplace for success in the twenty-first century;

(ii) Include the development of skill sets that promote information, media, and technological literacy;

(iii) Include interdisciplinary, project-based, real-world learning opportunities;

(iv) Instill life-long learning by providing essential knowledge and skills based in the liberal arts tradition, as well as science, technology, engineering, mathematics, and career-technical education;

(v) Be clearly written, transparent, and understandable by parents, educators, and the general public.

(b) Not later than July 1, 2012, the state board shall incorporate into the social studies standards for grades four to twelve academic content regarding the original texts of the Declaration of Independence, the Northwest Ordinance, the Constitution of the United States and its amendments, with emphasis on the Bill of Rights, and the Ohio Constitution, and their original context. The state board shall revise the model curricula and achievement assessments adopted under divisions (B) and (C) of this section as necessary to reflect the additional American history and
American government content. The state board shall make available a list of suggested grade-appropriate supplemental readings that place the documents prescribed by this division in their historical context, which teachers may use as a resource to assist students in reading the documents within that context.

(c) When the state board adopts or revises academic content standards in social studies, American history, American government, or science under division (A)(1) of this section, the state board shall develop such standards independently and not as part of a multistate consortium.

(2) After completing the standards required by division (A)(1) of this section, the state board shall adopt standards and model curricula for instruction in technology, financial literacy and entrepreneurship, fine arts, and foreign language for grades kindergarten through twelve. The standards shall meet the same requirements prescribed in division (A)(1)(a) of this section.

(3) The state board shall adopt the most recent standards developed by the national association for sport and physical education for physical education in grades kindergarten through twelve or shall adopt its own standards for physical education in those grades and revise and update them periodically.

The department of education shall employ a full-time physical education coordinator to provide guidance and technical assistance to districts, community schools, and STEM schools in implementing the physical education standards adopted under this division. The superintendent of public instruction shall determine that the person employed as coordinator is qualified for the position, as demonstrated by possessing an adequate combination of education, license, and experience.

(4) Not later than one year after the effective date of this amendment September 30, 2022, the state board shall update the standards and model curriculum for instruction in computer science in grades kindergarten through twelve, which shall include standards for introductory and advanced computer science courses in grades nine through twelve. When developing the standards and curriculum, the state board shall consider recommendations from computer science education stakeholder groups, including teachers and representatives from higher education, industry, computer science organizations in Ohio, and national computer science organizations.

Any district or school may utilize the computer science standards or model curriculum or any part thereof adopted pursuant to division (A)(4) of this section. However, no district or school shall be required to utilize all or any part of the standards or curriculum.

(5) When academic standards have been completed for any subject area required by this section, the state board shall inform all school districts, all community schools established under Chapter 3314. of the Revised Code, all STEM schools established under Chapter 3326. of the Revised Code, and all nonpublic schools required to administer the assessments prescribed by sections 3301.0710 and 3301.0712 of the Revised Code of the content of those standards. Additionally, upon completion of any academic standards under this section, the department shall post those standards on the department's web site.

(B)(1) The state board shall adopt a model curriculum for instruction in each subject area for which updated academic standards are required by division (A)(1) of this section and for each of grades kindergarten through twelve that is sufficient to meet the needs of students in every community. The model curriculum shall be aligned with the standards, to ensure that the academic
content and skills specified for each grade level are taught to students, and shall demonstrate vertical articulation and emphasize coherence, focus, and rigor. When any model curriculum has been completed, the state board shall inform all school districts, community schools, and STEM schools of the content of that model curriculum.

(2) Not later than June 30, 2013, the state board, in consultation with any office housed in the governor's office that deals with workforce development, shall adopt model curricula for grades kindergarten through twelve that embed career connection learning strategies into regular classroom instruction.

(3) All school districts, community schools, and STEM schools may utilize the state standards and the model curriculum established by the state board, together with other relevant resources, examples, or models to ensure that students have the opportunity to attain the academic standards. Upon request, the department shall provide technical assistance to any district, community school, or STEM school in implementing the model curriculum.

Nothing in this section requires any school district to utilize all or any part of a model curriculum developed under this section.

(C) The state board shall develop achievement assessments aligned with the academic standards and model curriculum for each of the subject areas and grade levels required by divisions (A)(1) and (B)(1) of section 3301.0710 of the Revised Code.

When any achievement assessment has been completed, the state board shall inform all school districts, community schools, STEM schools, and nonpublic schools required to administer the assessment of its completion, and the department shall make the achievement assessment available to the districts and schools.

(D)(1) The state board shall adopt a diagnostic assessment aligned with the academic standards and model curriculum for each of grades kindergarten through two in reading, writing, and mathematics and for grade three in reading and writing. The diagnostic assessment shall be designed to measure student comprehension of academic content and mastery of related skills for the relevant subject area and grade level. Any diagnostic assessment shall not include components to identify gifted students. Blank copies of diagnostic assessments shall be public records.

(2) When each diagnostic assessment has been completed, the state board shall inform all school districts of its completion and the department shall make the diagnostic assessment available to the districts at no cost to the district.

(3) School districts shall administer the diagnostic assessment pursuant to section 3301.0715 of the Revised Code beginning the first school year following the development of the assessment.

However, beginning with the 2017-2018 school year, both of the following shall apply:

(a) In the case of the diagnostic assessments for grades one or two in writing or mathematics or for grade three in writing, a school district shall not be required to administer any such assessment, but may do so at the discretion of the district board;

(b) In the case of any diagnostic assessment that is not for the grade levels and subject areas specified in division (D)(3)(a) of this section, each school district shall administer the assessment in the manner prescribed by section 3301.0715 of the Revised Code.

(E) The state board shall not adopt a diagnostic or achievement assessment for any grade level or subject area other than those specified in this section.
(F) Whenever the state board or the department consults with persons for the purpose of drafting or reviewing any standards, diagnostic assessments, achievement assessments, or model curriculum required under this section, the state board or the department shall first consult with parents of students in kindergarten through twelfth grade and with active Ohio classroom teachers, other school personnel, and administrators with expertise in the appropriate subject area. Whenever practicable, the state board and department shall consult with teachers recognized as outstanding in their fields.

If the department contracts with more than one outside entity for the development of the achievement assessments required by this section, the department shall ensure the interchangeability of those assessments.

(G) Whenever the state board adopts standards or model curricula under this section, the department also shall provide information on the use of blended, online, or digital learning in the delivery of the standards or curricula to students in accordance with division (A)(5) of this section.

(H) The fairness sensitivity review committee, established by rule of the state board of education, shall not allow any question on any achievement or diagnostic assessment developed under this section or any proficiency test prescribed by former section 3301.0710 of the Revised Code, as it existed prior to September 11, 2001, to include, be written to promote, or inquire as to individual moral or social values or beliefs. The decision of the committee shall be final. This section does not create a private cause of action.

(I) Not later than sixty days prior to the adoption by the state board of updated academic standards under division (A)(1) of this section or updated model curricula under division (B)(1) of this section, the superintendent of public instruction shall present the academic standards or model curricula, as applicable, in person at a public hearing of the respective committees of the house of representatives and senate that consider education legislation.

(J) As used in this section:
1. "Blended learning" means the delivery of instruction in a combination of time primarily in a supervised physical location away from home and online delivery whereby the student has some element of control over time, place, path, or pace of learning and includes noncomputer-based learning opportunities.
2. "Online learning" means students work primarily from their residences on assignments delivered via an internet- or other computer-based instructional method.
3. "Coherence" means a reflection of the structure of the discipline being taught.
4. "Digital learning" means learning facilitated by technology that gives students some element of control over time, place, path, or pace of learning.
5. "Focus" means limiting the number of items included in a curriculum to allow for deeper exploration of the subject matter.
6. "Vertical articulation" means key academic concepts and skills associated with mastery in particular content areas should be articulated and reinforced in a developmentally appropriate manner at each grade level so that over time students acquire a depth of knowledge and understanding in the core academic disciplines.

Sec. 3302.03. Not later than the thirty-first day of July of each year, the department of education shall submit preliminary report card data for overall academic performance and for each
separate performance measure for each school district, and each school building, in accordance with this section.

Annually, not later than the fifteenth day of September or the preceding Friday when that day falls on a Saturday or Sunday, the department shall assign a letter grade or performance rating for overall academic performance and for each separate performance measure for each school district, and each school building in a district, in accordance with this section. The state board of education shall adopt rules pursuant to Chapter 119. of the Revised Code to implement this section. The state board's rules shall establish performance criteria for each letter grade or performance rating and prescribe a method by which the department assigns each letter grade or performance rating. For a school building to which any of the performance measures do not apply, due to grade levels served by the building, the department shall designate the performance measures that are applicable to the building and that must be calculated separately and used to calculate the building's overall grade or performance rating. The department shall issue annual report cards reflecting the performance of each school district, each building within each district, and for the state as a whole using the performance measures and letter grade or performance rating system described in this section. The department shall include on the report card for each district and each building within each district the most recent two-year trend data in student achievement for each subject and each grade.

(A)(1) For the 2012-2013 school year, the department shall issue grades as described in division (F) of this section for each of the following performance measures:

(a) Annual measurable objectives;

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as adopted by the state board. In adopting benchmarks for assigning letter grades under division (A)(1)(b) of this section, the state board shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.02 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (A)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates.

In adopting benchmarks for assigning letter grades under division (A)(1)(d), (B)(1)(d), or (C)(1)(d) of this section, the department shall designate a four-year adjusted cohort graduation rate of ninety-three per cent or higher for an "A" and a five-year cohort graduation rate of ninety-five per cent or higher for an "A."

(e) The overall score under the value-added progress dimension of a school district or building, for which the department shall use up to three years of value-added data as available. The letter grade assigned for this growth measure shall be as follows:

(i) A score that is at least one standard error of measure above the mean score shall be designated as an "A."

(ii) A score that is less than one standard error of measure above but greater than one standard error of measure below the mean score shall be designated as a "B."
(iii) A score that is less than or equal to one standard error of measure below the mean score but greater than two standard errors of measure below the mean score shall be designated as a "C."

(iv) A score that is less than or equal to two standard errors of measure below the mean score but is greater than three standard errors of measure below the mean score shall be designated as a "D."

(v) A score that is less than or equal to three standard errors of measure below the mean score shall be designated as an "F."

Whenever the value-added progress dimension is used as a graded performance measure in this division and divisions (B) and (C) of this section, whether as an overall measure or as a measure of separate subgroups, the grades for the measure shall be calculated in the same manner as prescribed in division (A)(1)(e) of this section.

(f) The value-added progress dimension score for a school district or building disaggregated for each of the following subgroups: students identified as gifted, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis. Each subgroup shall be a separate graded measure.

(2) Not later than April 30, 2013, the state board of education shall adopt a resolution describing the performance measures, benchmarks, and grading system for the 2012-2013 school year and, not later than June 30, 2013, shall adopt rules in accordance with Chapter 119. of the Revised Code that prescribe the methods by which the performance measures under division (A)(1) of this section shall be assessed and assigned a letter grade, including performance benchmarks for each letter grade.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods by which the performance measures under division (A)(1) of this section shall be assessed and assigned a letter grade, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing such methods, including performance benchmarks.

(3) There shall not be an overall letter grade for a school district or building for the 2012-2013 school year.

(B)(1) For the 2013-2014 school year, the department shall issue grades as described in division (F) of this section for each of the following performance measures:

(a) Annual measurable objectives;

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as created by the department. In adopting benchmarks for assigning letter grades under division (B)(1)(b) of this section, the state board shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.03 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (B)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates;
(e) The overall score under the value-added progress dimension of a school district or building, for which the department shall use up to three years of value-added data as available.

(f) The value-added progress dimension score for a school district or building disaggregated for each of the following subgroups: students identified as gifted in superior cognitive ability and specific academic ability fields under Chapter 3324. of the Revised Code, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis. Each subgroup shall be a separate graded measure.

(g) Whether a school district or building is making progress in improving literacy in grades kindergarten through three, as determined using a method prescribed by the state board. The state board shall adopt rules to prescribe benchmarks and standards for assigning grades to districts and buildings for purposes of division (B)(1)(g) of this section. In adopting benchmarks for assigning letter grades under divisions (B)(1)(g) and (C)(1)(g) of this section, the state board shall determine progress made based on the reduction in the total percentage of students scoring below grade level, or below proficient, compared from year to year on the reading and writing diagnostic assessments administered under section 3301.0715 of the Revised Code and the third grade English language arts assessment under section 3301.0710 of the Revised Code, as applicable. The state board shall designate for a "C" grade a value that is not lower than the statewide average value for this measure. No grade shall be issued under divisions (B)(1)(g) and (C)(1)(g) of this section for a district or building in which less than five per cent of students have scored below grade level on the diagnostic assessment administered to students in kindergarten under division (B)(1) of section 3313.608 of the Revised Code.

(h) For a high mobility school district or building, an additional value-added progress dimension score. For this measure, the department shall use value-added data from the most recent school year available and shall use assessment scores for only those students to whom the district or building has administered the assessments prescribed by section 3301.0710 of the Revised Code for each of the two most recent consecutive school years.

As used in this division, "high mobility school district or building" means a school district or building where at least twenty-five per cent of its total enrollment is made up of students who have attended that school district or building for less than one year.

(2) In addition to the graded measures in division (B)(1) of this section, the department shall include on a school district's or building's report card all of the following without an assigned letter grade:

(a) The percentage of students enrolled in a district or building participating in advanced placement classes and the percentage of those students who received a score of three or better on advanced placement examinations;

(b) The number of a district's or building's students who have earned at least three college credits through dual enrollment or advanced standing programs, such as the post-secondary enrollment options program under Chapter 3365. of the Revised Code and state-approved career-technical courses offered through dual enrollment or statewide articulation, that appear on a student's transcript or other official document, either of which is issued by the institution of higher education from which the student earned the college credit. The credits earned that are reported under divisions (B)(2)(b) and (C)(2)(c) of this section shall not include any that are remedial or developmental and
shall include those that count toward the curriculum requirements established for completion of a degree.

(c) The percentage of students enrolled in a district or building who have taken a national standardized test used for college admission determinations and the percentage of those students who are determined to be remediation-free in accordance with standards adopted under division (F) of section 3345.061 of the Revised Code;

(d) The percentage of the district's or the building's students who receive industry-recognized credentials as approved under section 3313.6113 of the Revised Code.

(e) The percentage of students enrolled in a district or building who are participating in an international baccalaureate program and the percentage of those students who receive a score of four or better on the international baccalaureate examinations.

(f) The percentage of the district's or building's students who receive an honors diploma under division (B) of section 3313.61 of the Revised Code.

(3) Not later than December 31, 2013, the state board shall adopt rules in accordance with Chapter 119. of the Revised Code that prescribe the methods by which the performance measures under divisions (B)(1)(f) and (B)(1)(g) of this section will be assessed and assigned a letter grade, including performance benchmarks for each grade.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods by which the performance measures under division (B)(1) of this section shall be assessed and assigned a letter grade, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing such methods, including performance benchmarks.

(C)(1) For the 2014-2015, 2015-2016, 2016-2017, 2017-2018, 2018-2019, 2019-2020, and 2020-2021 school years, the department shall issue grades as described in division (F) of this section for each of the performance measures prescribed in division (C)(1) of this section. The graded measures are as follows:

(a) Annual measurable objectives. For the 2017-2018 school year, the department shall not include any subgroup data in the annual measurable objectives that includes data from fewer than twenty-five students. For the 2018-2019 school year, the department shall not include any subgroup data in the annual measurable objectives that includes data from fewer than twenty students. Beginning with the 2019-2020 school year, the department shall not include any subgroup data in the annual measurable objectives that includes data from fewer than fifteen students.

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as created by the department. In adopting benchmarks for assigning letter grades under division (C)(1)(b) of this section, the state board shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.03 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting
benchmarks for assigning letter grades under division (C)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates;

(e) The overall score under the value-added progress dimension, or another measure of student academic progress if adopted by the state board, of a school district or building, for which the department shall use up to three years of value-added data as available.

In adopting benchmarks for assigning letter grades for overall score on value-added progress dimension under division (C)(1)(e) of this section, the state board shall prohibit the assigning of a grade of "A" for that measure unless the district's or building's grade assigned for value-added progress dimension for all subgroups under division (C)(1)(f) of this section is a "C" or higher.

For the metric prescribed by division (C)(1)(e) of this section, the state board may adopt a student academic progress measure to be used instead of the value-added progress dimension. If the state board adopts such a measure, it also shall prescribe a method for assigning letter grades for the new measure that is comparable to the method prescribed in division (A)(1)(e) of this section.

(f) The value-added progress dimension score of a school district or building disaggregated for each of the following subgroups: students identified as gifted in superior cognitive ability and specific academic ability fields under Chapter 3324. of the Revised Code, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis, as determined by a method prescribed by the state board. Each subgroup shall be a separate graded measure.

The state board may adopt student academic progress measures to be used instead of the value-added progress dimension. If the state board adopts such measures, it also shall prescribe a method for assigning letter grades for the new measures that is comparable to the method prescribed in division (A)(1)(e) of this section.

(g) Whether a school district or building is making progress in improving literacy in grades kindergarten through three, as determined using a method prescribed by the state board. The state board shall adopt rules to prescribe benchmarks and standards for assigning grades to a district or building for purposes of division (C)(1)(g) of this section. The state board shall designate for a "C" grade a value that is not lower than the statewide average value for this measure. No grade shall be issued under division (C)(1)(g) of this section for a district or building in which less than five per cent of students have scored below grade level on the kindergarten diagnostic assessment under division (B)(1) of section 3313.608 of the Revised Code.

(h) For a high mobility school district or building, an additional value-added progress dimension score. For this measure, the department shall use value-added data from the most recent school year available and shall use assessment scores for only those students to whom the district or building has administered the assessments prescribed by section 3301.0710 of the Revised Code for each of the two most recent consecutive school years.

As used in this division, "high mobility school district or building" means a school district or building where at least twenty-five per cent of its total enrollment is made up of students who have attended that school district or building for less than one year.

(2) In addition to the graded measures in division (C)(1) of this section, the department shall include on a school district's or building's report card all of the following without an assigned letter
grade:

(a) The percentage of students enrolled in a district or building who have taken a national standardized test used for college admission determinations and the percentage of those students who are determined to be remediation-free in accordance with the standards adopted under division (F) of section 3345.061 of the Revised Code;

(b) The percentage of students enrolled in a district or building participating in advanced placement classes and the percentage of those students who received a score of three or better on advanced placement examinations;

(c) The percentage of a district's or building's students who have earned at least three college credits through advanced standing programs, such as the college credit plus program under Chapter 3365. of the Revised Code and state-approved career-technical courses offered through dual enrollment or statewide articulation, that appear on a student's college transcript issued by the institution of higher education from which the student earned the college credit. The credits earned that are reported under divisions (B)(2)(b) and (C)(2)(c) of this section shall not include any that are remedial or developmental and shall include those that count toward the curriculum requirements established for completion of a degree.

(d) The percentage of the district's or building's students who receive an honor's diploma under division (B) of section 3313.61 of the Revised Code;

(e) The percentage of the district's or building's students who receive industry-recognized credentials as approved under section 3313.6113 of the Revised Code;

(f) The percentage of students enrolled in a district or building who are participating in an international baccalaureate program and the percentage of those students who receive a score of four or better on the international baccalaureate examinations;

(g) The results of the college and career-ready assessments administered under division (B)(1) of section 3301.0712 of the Revised Code;

(h) Whether the school district or building has implemented a positive behavior intervention and supports framework in compliance with the requirements of section 3319.46 of the Revised Code, notated as a "yes" or "no" answer.

(3) The state board shall adopt rules pursuant to Chapter 119. of the Revised Code that establish a method to assign an overall grade for a school district or school building for the 2017-2018 school year and each school year thereafter. The rules shall group the performance measures in divisions (C)(1) and (2) of this section into the following components:

(a) Gap closing, which shall include the performance measure in division (C)(1)(a) of this section;

(b) Achievement, which shall include the performance measures in divisions (C)(1)(b) and (c) of this section;

(c) Progress, which shall include the performance measures in divisions (C)(1)(e) and (f) of this section;

(d) Graduation, which shall include the performance measure in division (C)(1)(d) of this section;

(e) Kindergarten through third-grade literacy, which shall include the performance measure in division (C)(1)(g) of this section;
(f) Prepared for success, which shall include the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. The state board shall develop a method to determine a grade for the component in division (C)(3)(f) of this section using the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. When available, the state board may incorporate the performance measure under division (C)(2)(g) of this section into the component under division (C)(3)(f) of this section. When determining the overall grade for the prepared for success component prescribed by division (C)(3)(f) of this section, no individual student shall be counted in more than one performance measure. However, if a student qualifies for more than one performance measure in the component, the state board may, in its method to determine a grade for the component, specify an additional weight for such a student that is not greater than or equal to 1.0. In determining the overall score under division (C)(3)(f) of this section, the state board shall ensure that the pool of students included in the performance measures aggregated under that division are all of the students included in the four- and five-year adjusted graduation cohort.

In the rules adopted under division (C)(3) of this section, the state board shall adopt a method for determining a grade for each component in divisions (C)(3)(a) to (f) of this section. The state board also shall establish a method to assign an overall grade of "A," "B," "C," "D," or "F" using the grades assigned for each component. The method the state board adopts for assigning an overall grade shall give equal weight to the components in divisions (C)(3)(b) and (c) of this section.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods for calculating the overall grade for the report card, as required by this division, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing the format for the report card, weights that will be assigned to the components of the overall grade, and the method for calculating the overall grade.

(D) For the 2021-2022 school year and each school year thereafter, all of the following apply:

1. The department shall include on a school district's or building's report card all of the following performance measures without an assigned performance rating:
   (a) Whether the district or building meets the gifted performance indicator under division (A)(2) of section 3302.02 of the Revised Code and the extent to which the district or building meets gifted indicator performance benchmarks;
   (b) The extent to which the district or building meets the chronic absenteeism indicator under division (A)(3) of section 3302.02 of the Revised Code;
   (c) Performance index score percentage for a district or building, which shall be calculated by dividing the district's or building's performance index score according to the performance index system created by the department by the maximum performance index score for a district or building. The maximum performance index score shall be as follows:

      (ii) For a district, the average of the highest two per cent of performance index scores achieved by a district for the school year for which a report card is issued.
   (d) The overall score under the value-added progress dimension of a district or building, for which the department shall use three consecutive years of value-added data. In using three years of value-added data to calculate the measure prescribed under division (D)(1)(d) of this section, the
The department shall assign a weight of fifty per cent to the most recent year's data and a weight of twenty-five per cent to the data of each of the other years. However, if three consecutive years of value-added data is not available, the department shall use prior years of value-added data to calculate the measure, as follows:

(i) If two consecutive years of value-added data is not available, the department shall use one year of value-added data to calculate the measure.

(ii) If two consecutive years of value-added data is available, the department shall use two consecutive years of value-added data to calculate the measure. In using two years of value-added data to calculate the measure, the department shall assign a weight of sixty-seven per cent to the most recent year's data and a weight of thirty-three per cent to the data of the other year.

The method shall not include a deduction for students who did not pass the third grade English language arts assessment under section 3301.0710 of the Revised Code and were not on a reading improvement and monitoring plan.

The performance measure prescribed under division (D)(1)(h) of this section shall not be included on the report card of a district or building in which less than ten per cent of students have scored below grade level on the diagnostic assessment administered to students in kindergarten under division (B)(1) of section 3313.608 of the Revised Code.

(ix) Providing evidence that the student has enlisted in a branch of the armed services of the United States as defined in section 5910.01 of the Revised Code.

A student who satisfies more than one of the conditions prescribed under this division shall be counted as one student for the purposes of calculating the measure prescribed under division (D)(1)(j) of this section.

To the extent possible, and when appropriate, the data shall be disaggregated by grade level and subgroup. The measure also shall include data regarding the statewide average, the average for similar school districts, and, for a building, the average for the district in which the building is located. The measure shall include all of the following data for the district or building:

   (i) The average ratio of teachers of record to students in each grade level in a district or building;

(ii) The students completed all of the grade levels offered prior to the fourth grade in the district or building.

(3) Except as provided in division (D)(3)(f) of this section, the department shall use the state board's method prescribed under rules adopted under division (D)(4) of this section to assign performance ratings of "one star," "two stars," "three stars," "four stars," or "five stars," as described in division (F) of this section, for a district or building for the individual components prescribed under division (D)(3) of this section. The department also shall assign an overall performance rating for a district or building in accordance with division (D)(3)(g) of this section. The method may report data under division (D)(2) of this section with corresponding components, but shall not use the data to calculate performance ratings for that component. The performance measures and reported data shall be grouped together into components as follows:

(a) Gap closing. In addition to other criteria determined appropriate by the department, performance ratings for the gap closing component shall reflect whether each of the following performance measures are met or not met:

(i) The gifted performance indicator as described in division (D)(1)(a) of this section;

(ii) The chronic absenteeism indicator as described in division (D)(1)(b) of this section;

(iii) For English learners, an English language proficiency improvement indicator established by the department;

(iv) The subgroup graduation targets;

(v) The subgroup achievement targets in both mathematics and English language arts;

(vi) The subgroup progress targets in both mathematics and English language arts.

Achievement and progress targets under division (D)(3)(a) of this section shall be calculated individually, and districts and buildings shall receive a status of met or not met on each measure. The department shall not require a subgroup of a district or building to meet both the achievement and progress targets at the same time to receive a status of met.

The department shall not include any subgroup data in this measure that includes data from
fewer than fifteen students. Any penalty for failing to meet the required assessment participation rate must be partially in proportion to how close the district or building was to meeting the rate requirement.

(b) Achievement, which shall include the performance measure in division (D)(1)(c) of this section and the reported data in division (D)(2)(a) of this section. Performance ratings for the achievement component shall be awarded as a percentage of the maximum performance index score described in division (D)(1)(c) of this section.

(c) Progress, which shall include the performance measure in division (D)(1)(d) of this section and the reported data in divisions (D)(2)(b) and (c) of this section;

(d) Graduation, which shall include the performance measures in divisions (D)(1)(e) and (f) of this section and the reported data in divisions (D)(2)(d) and (j) of this section. The four-year adjusted cohort graduation rate shall be assigned a weight of sixty per cent and the five-year adjusted cohort graduation rate shall be assigned a weight of forty per cent;

(e) Early literacy, which shall include the performance measures in divisions (D)(1)(g), (h), and (i) of this section and the reported data in divisions (D)(2)(e) and (k) of this section.

If the measure prescribed under division (D)(1)(h) of this section is included in a report card, performance ratings for the early literacy component shall give a weight of forty per cent to the measure prescribed under division (D)(1)(g) of this section, a weight of thirty-five per cent to the measure prescribed under division (D)(1)(i) of this section, and a weight of twenty-five per cent to the measure prescribed under division (D)(1)(h) of this section.

If the measure prescribed under division (D)(1)(h) of this section is not included in a report card of a district or building, performance ratings for the early literacy component shall give a weight of sixty per cent to the measure prescribed under division (D)(1)(g) of this section and a weight of forty per cent to the measure prescribed under division (D)(1)(i) of this section.

(f) College, career, workforce, and military readiness, which shall include the performance measure in division (D)(1)(j) of this section and the reported data in division (D)(2)(f) of this section.

For the 2021-2022, 2022-2023, and 2023-2024 school years, the department only shall report the data for, and not assign a performance rating to, the college, career, workforce, and military readiness component. The reported data shall include the percentage of students who demonstrate post-secondary readiness using any of the options described in division (D)(1)(j) of this section.

The department shall analyze the data included in the performance measure prescribed in division (D)(1)(j) of this section for the 2021-2022, 2022-2023, and 2023-2024 school years. Using that data, the department shall develop and propose rules for a method to assign a performance rating to the college, career, workforce, and military readiness component based on that measure. The method to assign a performance rating shall not include a tiered structure or per student bonuses. The rules shall specify that a district or building shall not receive lower than a performance rating of three stars for the component if the district's or building's performance on the component meets or exceeds a level of improvement set by the department. Notwithstanding division (D)(4)(b) of this section, more than half of the total districts and buildings may earn a performance rating of three stars on this component to account for the districts and buildings that earned a performance rating of three stars because they met or exceeded the level of improvement set by the department.

The department shall submit the rules to the joint committee on agency rule review. The
committee shall conduct at least one public hearing on the proposed rules and approve or disapprove the rules. If the committee approves the rules, the state board shall adopt the rules in accordance with Chapter 119. of the Revised Code. If the rules are adopted, the department shall assign a performance rating to the college, career, workforce, and military readiness component under the rules beginning with the 2024-2025 school year, and for each school year thereafter. If the committee disapproves the rules, the component shall be included in the report card only as reported data for the 2024-2025 school year, and each school year thereafter.

(g)(i) Except as provided for in division (D)(3)(g)(ii) of this section, beginning with the 2022-2023 school year, under the state board's method prescribed under rules adopted in division (D) (4) of this section, the department shall use the performance ratings assigned for the components prescribed in divisions (D)(3)(a) to (e) of this section to determine and assign an overall performance rating of "one star," "one and one-half stars," "two stars," "two and one-half stars," "three stars," "three and one-half stars," "four stars," "four and one-half stars," or "five stars" for a district or building. The method shall give equal weight to the components in divisions (D)(3)(b) and (c) of this section. The method shall give equal weight to the components in divisions (D)(3)(a), (d), and (e) of this section. The individual weights of each of the components prescribed in divisions (D)(3)(a), (d), and (e) of this section shall be equal to one-half of the weight given to the component prescribed in division (D)(3)(b) of this section.

(ii) If the joint committee on agency rule review approves the department's rules regarding the college, career, workforce, and military readiness component as described in division (D)(3)(f) of this section, for the 2024-2025 school year, and each school year thereafter, the state board's method shall use the components in divisions (D)(3)(a), (b), (c), (d), (e), and (f) of this section to calculate the overall performance rating. The method shall give equal weight to the components in divisions (D)(3)(b) and (c) of this section. The method shall give equal weight to the components prescribed in divisions (D)(3)(a), (d), (e), and (f) of this section. The individual weights of each of the components prescribed in divisions (D)(3)(a), (d), (e), and (f) of this section shall be equal to one-half the weight given to the component prescribed in division (D)(3)(b) of this section.

If the joint committee on agency rule review disapproves the department's rules regarding the college, career, workforce, and military readiness component as described in division (D)(3)(f) of this section, division (D)(3)(g)(ii) of this section does not apply.

(4)(a) The state board shall adopt rules in accordance with Chapter 119. of the Revised Code to establish the performance criteria, benchmarks, and rating system necessary to implement divisions (D) and (F) of this section, including the method for the department to assign performance ratings under division (D)(3) of this section.

(b) In establishing the performance criteria, benchmarks, and rating system, the state board shall consult with stakeholder groups and advocates that represent parents, community members, students, business leaders, and educators from different school typology regions. The state board shall use data from prior school years and simulations to ensure that there is meaningful differentiation among districts and buildings across all performance ratings and that, except as permitted in division (D)(3)(f) of this section, more than half of all districts or buildings do not earn the same performance rating in any component or overall performance rating.

(c) The state board shall adopt the rules prescribed by division (D)(4) of this section not later
than March 31, 2022. However, the department shall notify districts and buildings of the changes to
the report card prescribed in law not later than one week after the effective date of this amendment.

(d) Prior to adopting or updating rules under division (D)(4) of this section, the president of
the state board and the department shall conduct a public presentation before the standing committees
of the house of representatives and the senate that consider primary and secondary education
legislation describing the format for the report card and the performance criteria, benchmarks, and
rating system, including the method to assign performance ratings under division (D)(3) of this
section.

(E) On or after July 1, 2015, the state board may develop a measure of student academic
progress for high school students using only data from assessments in English language arts and
mathematics. If the state board develops this measure, each school district and applicable school
building shall be assigned a separate letter grade for it not sooner than the 2017-2018 school year.
The district's or building's grade for that measure shall not be included in determining the district's or
building's overall letter grade.

(F)(1) The letter grades assigned to a school district or building under this section shall be as
follows:
   (a) "A" for a district or school making excellent progress;
   (b) "B" for a district or school making above average progress;
   (c) "C" for a district or school making average progress;
   (d) "D" for a district or school making below average progress;
   (e) "F" for a district or school failing to meet minimum progress.

(2) For the overall performance rating under division (D)(3) of this section, the department
shall include a descriptor for each performance rating as follows:
   (a) "Significantly exceeds state standards" for a performance rating of five stars;
   (b) "Exceeds state standards" for a performance rating of four stars or four and one-half stars;
   (c) "Meets state standards" for a performance rating of three stars or three and one-half stars;
   (d) "Needs support to meet state standards" for a performance rating of two stars or two and
one-half stars;
   (e) "Needs significant support to meet state standards" for a performance rating of one star or
one and one-half stars.

(3) For performance ratings for each component under divisions (D)(3)(a) to (f) of this
section, the state board shall include a description of each component and performance rating. The
description shall include component-specific context to each performance rating earned, estimated
comparisons to other school districts and buildings if appropriate, and any other information
determined by the state board. The descriptions shall be not longer than twenty-five words in length
when possible. In addition to such descriptions, the state board shall include the descriptors in
division (F)(2) of this section for component performance ratings.

(4) Each report card issued under this section shall include all of the following:
   (a) A graphic that depicts the performance ratings of a district or school on a color scale. The
color associated with a performance rating of three stars shall be green and the color associated with
a performance rating of one star shall be red.
   (b) An arrow graphic that shows data trends for performance ratings for school districts or
buildings. The state board shall determine the data to be used for this graphic, which shall include at least the three most recent years of data.

(c) A description regarding the weights that are assigned to each component and used to determine an overall performance rating, as prescribed under division (D)(3)(g) of this section, which shall be included in the presentation of the overall performance rating on each report card.

(G) When reporting data on student achievement and progress, the department shall disaggregate that data according to the following categories:

1. Performance of students by grade-level;
2. Performance of students by race and ethnic group;
3. Performance of students by gender;
4. Performance of students grouped by those who have been enrolled in a district or school for three or more years;
5. Performance of students grouped by those who have been enrolled in a district or school for more than one year and less than three years;
6. Performance of students grouped by those who have been enrolled in a district or school for one year or less;
7. Performance of students grouped by those who are economically disadvantaged;
8. Performance of students grouped by those who are enrolled in a conversion community school established under Chapter 3314. of the Revised Code;
9. Performance of students grouped by those who are classified as English learners;
10. Performance of students grouped by those who have disabilities;
11. Performance of students grouped by those who are classified as migrants;
12. Performance of students grouped by those who are identified as gifted in superior cognitive ability and the specific academic ability fields of reading and math pursuant to Chapter 3324. of the Revised Code. In disaggregating specific academic ability fields for gifted students, the department shall use data for those students with specific academic ability in math and reading. If any other academic field is assessed, the department shall also include data for students with specific academic ability in that field as well.
13. Performance of students grouped by those who perform in the lowest quintile for achievement on a statewide basis, as determined by a method prescribed by the state board.

The department may disaggregate data on student performance according to other categories that the department determines are appropriate. To the extent possible, the department shall disaggregate data on student performance according to any combinations of two or more of the categories listed in divisions (G)(1) to (13) of this section that it deems relevant.

In reporting data pursuant to division (G) of this section, the department shall not include in the report cards any data statistical in nature that is statistically unreliable or that could result in the identification of individual students. For this purpose, the department shall not report student performance data for any group identified in division (G) of this section that contains less than ten students. If the department does not report student performance data for a group because it contains less than ten students, the department shall indicate on the report card that is why data was not reported.

(H) The department may include with the report cards any additional education and fiscal
performance data it deems valuable.

(I) The department shall include on each report card a list of additional information collected by the department that is available regarding the district or building for which the report card is issued. When available, such additional information shall include student mobility data disaggregated by race and socioeconomic status, college enrollment data, and the reports prepared under section 3302.031 of the Revised Code.

The department shall maintain a site on the world wide web. The report card shall include the address of the site and shall specify that such additional information is available to the public at that site. The department shall also provide a copy of each item on the list to the superintendent of each school district. The district superintendent shall provide a copy of any item on the list to anyone who requests it.

(J)(1)(a) Except as provided in division (J)(1)(b) of this section, for any district that sponsors a conversion community school under Chapter 3314. of the Revised Code, the department shall combine data regarding the academic performance of students enrolled in the community school with comparable data from the schools of the district for the purpose of determining the performance of the district as a whole on the report card issued for the district under this section or section 3302.033 of the Revised Code.

(b) The department shall not combine data from any conversion community school that a district sponsors if a majority of the students enrolled in the conversion community school are enrolled in a dropout prevention and recovery program that is operated by the school, as described in division (A)(4)(a) of section 3314.35 of the Revised Code. The department shall include as an addendum to the district's report card the ratings and performance measures that are required under section 3314.017 of the Revised Code for any community school to which division (J)(1)(b) of this section applies. This addendum shall include, at a minimum, the data specified in divisions (C)(1)(a), (C)(2), and (C)(3) of section 3314.017 of the Revised Code.

(2) Any district that leases a building to a community school located in the district or that enters into an agreement with a community school located in the district whereby the district and the school endorse each other's programs may elect to have data regarding the academic performance of students enrolled in the community school combined with comparable data from the schools of the district for the purpose of determining the performance of the district as a whole on the district report card. Any district that so elects shall annually file a copy of the lease or agreement with the department.

(3) Any municipal school district, as defined in section 3311.71 of the Revised Code, that sponsors a community school located within the district's territory, or that enters into an agreement with a community school located within the district's territory whereby the district and the community school endorse each other's programs, may exercise either or both of the following elections:

(a) To have data regarding the academic performance of students enrolled in that community school combined with comparable data from the schools of the district for the purpose of determining the performance of the district as a whole on the district's report card;

(b) To have the number of students attending that community school noted separately on the district's report card.
The election authorized under division (J)(3)(a) of this section is subject to approval by the governing authority of the community school.

Any municipal school district that exercises an election to combine or include data under division (J)(3) of this section, by the first day of October of each year, shall file with the department documentation indicating eligibility for that election, as required by the department.

(K) The department shall include on each report card the percentage of teachers in the district or building who are properly certified or licensed teachers, as defined in section 3319.074 of the Revised Code, and a comparison of that percentage with the percentages of such teachers in similar districts and buildings.
