Sec. 117.16. (A) The auditor of state shall do all of the following:

(1) Develop a force account project assessment form that each public office that undertakes force account projects shall use to estimate or report the cost of a force account project. The form shall include costs for employee salaries and benefits, any other labor costs, materials, freight, fuel, hauling, overhead expense, workers' compensation premiums, and all other items of cost and expense, including a reasonable allowance for the use of all tools and equipment used on or in connection with such work and for the depreciation on the tools and equipment.

(2) Make the form available to public offices by any cost-effective, convenient method accessible to the auditor of state and the public offices;
(3) When conducting an audit under this chapter of a public office that undertakes force account projects, examine the forms and records of a sampling of the force account projects the public office completed since an audit was last conducted, to determine compliance with its force account limits.

(B) If the auditor of state receives a complaint from any person that a public office has violated the force account limits established for that office, the auditor of state may conduct an audit in addition to the audit provided in section 117.11 of the Revised Code if the auditor of state has reasonable cause to believe that an additional audit is in the public interest.

(C)(1) If the auditor of state finds that a county, township, or municipal corporation violated the force account limits established for that political subdivision, the auditor of state, in addition to any other action authorized by this chapter, shall notify the political subdivision that, for a period of one year from the date of the notification, the force account limits for the subdivision are reduced as follows:

(a) For a county, the limits shall be ten thousand dollars per mile one-third of that county's force account limits for construction or reconstruction of a road and forty thousand dollars one-third of that county's force account limits for construction, reconstruction, maintenance, or repair of a bridge or culvert;

(b) For a township, the limit shall be fifteen thousand dollars one-third of that township's force account limits for maintenance and repair of a road or five thousand per mile one-third of that township's force account limits for construction or reconstruction of a township road;

(c) For a municipal corporation, the limit shall be ten thousand dollars one-third of that municipal corporation's force account limits for the construction, reconstruction, widening, resurfacing, or repair of a street or other public way.

(2) If the auditor of state finds that a county, township, or municipal corporation violated the force account limits established for that political subdivision a second or subsequent time, the auditor of state, in addition to any other action authorized by this chapter, shall notify the political subdivision that, for a period of two years from the date of the notification, the force account limits for the subdivision are reduced in accordance with division (C)(1)(a), (b), or (c) of this section.

(3) If the auditor of state finds that a county, township, or municipal corporation violated the force account limits established for that political subdivision a third or subsequent time, the auditor of state shall certify to the tax commissioner an amount the auditor of state determines to be twenty per cent of the total cost of the force account project that is the basis of the violation. Upon receipt of this certification, the tax commissioner shall withhold the certified amount from any funds under the tax commissioner's control that are due or payable to that political subdivision. The tax commissioner shall promptly deposit this withheld amount to the credit of the local transportation improvement program fund created by section 164.14 of the Revised Code.

If the tax commissioner determines that no funds are due and payable to the violating political subdivision or that insufficient amounts of such funds are available to cover the entire certified amount, the tax commissioner shall withhold and deposit to the credit of the local transportation improvement program fund any amount available and certify the remaining amount to be withheld to the county auditor of the county in which the political subdivision is located. The county auditor shall withhold from that political subdivision any amount, up to that certified by the
tax commissioner, that is available from any funds under the county auditor's control, that is due or payable to that political subdivision, and that can be lawfully withheld. The county auditor shall promptly pay that withheld amount to the tax commissioner for deposit into the local transportation improvement program fund.

The payments required under division (C)(3) of this section are in addition to the force account limit reductions described in division (C)(2) of this section and also are in addition to any other action authorized by this chapter.

(D) If the auditor of state finds that a county, township, or municipal corporation violated its force account limits when participating in a joint force account project, the auditor of state shall impose the reduction in force account limits under division (C) of this section on all entities participating in the joint project.

(E) As used in this section, "force account limits" means any of the following, as applicable:
(1) For a county, the amounts established in section 5543.19 of the Revised Code;
(2) For a township, the amounts established in section 5575.01 of the Revised Code;
(3) For a municipal corporation, the amount established in section 723.52 of the Revised Code;
(4) For the department of transportation, the amount established in section 5517.02 of the Revised Code.

Sec. 124.152. (A)(1) Except as provided in division (A)(2) of this section, each exempt employee shall be paid a salary or wage in accordance with schedule E-1 or schedule E-2 of division (B) of this section.

(2) Each exempt employee who holds a position in the unclassified civil service pursuant to division (A)(26) or (30) of section 124.11 of the Revised Code may be paid a salary or wage in accordance with schedule E-1 or schedule E-2 of division (B) of this section, as applicable.

(D)(1) The director of administrative services shall adopt rules establishing pay range 19 in schedule E-1 of division (B)(3) of this section. In the rules, the director shall do both of the following:

(a) Require that an individual paid in accordance with range 19 be paid a minimum annual salary of $101,935 up to a maximum annual salary of $122,465.

Sec. 303.02. (A) Except as otherwise provided in this section, in the interest of the public health and safety, the board of county commissioners may regulate by resolution, in accordance with a comprehensive plan, the location, height, bulk, number of stories, and size of buildings and other structures, including tents, cabins, and trailer coaches, percentages of lot areas that may be occupied, set back building lines, sizes of yards, courts, and other open spaces, the density of population, the uses of buildings and other structures, including tents, cabins, and trailer coaches, and the uses of land for trade, industry, residence, recreation, or other purposes in the unincorporated territory of the county. Except as otherwise provided in this section, in the interest of the public convenience, comfort, prosperity, or general welfare, the board, by resolution, in accordance with a comprehensive plan, may regulate the location of, set back lines for, and the uses of buildings and other structures, including tents, cabins, and trailer coaches, and the uses of land for trade, industry, residence, recreation, or other purposes in the unincorporated territory of the county, and may establish reasonable landscaping standards and architectural standards excluding exterior building materials in
the unincorporated territory of the county. Except as otherwise provided in this section, in the interest of
the public convenience, comfort, prosperity, or general welfare, the board may regulate by
resolution, in accordance with a comprehensive plan, for nonresidential property only, the height,
bulk, number of stories, and size of buildings and other structures, including tents, cabins, and trailer
coaches, percentages of lot areas that may be occupied, sizes of yards, courts, and other open spaces,
and the density of population in the unincorporated territory of the county. For all these purposes, the

such number, shape, and area as the board determines. All such regulations shall be uniform for each
class or kind of building or other structure or use throughout any district or zone, but the regulations
in one district or zone may differ from those in other districts or zones.

For any activities permitted and regulated under Chapter 1513. or 1514. of the Revised Code
and any related processing activities, the board of county commissioners may regulate under the
authority conferred by this section only in the interest of public health or safety. A zoning resolution
authorized under this section shall provide for the activities that are permitted and regulated under
Chapter 1514. of the Revised Code, and any related processing activities, as either a permitted use or
a conditional use through the board of zoning appeals in any district or zone when such activities are
to be added to an existing permit issued under Chapter 1514. of the Revised Code.

(B) A board of county commissioners that pursuant to this chapter regulates adult
entertainment establishments, as defined in section 2907.39 of the Revised Code, may modify its
administrative zoning procedures with regard to adult entertainment establishments as the board

qualifying projects. Pursuant to such an agreement, the authority may pledge or assign sales and use

(C) Neither a qualifying regional transit authority, nor the electors thereof, may repeal, rescind, or reduce any portion of a sales and use tax pledged or assigned to pay the debt service on qualifying bonds while those bonds remain outstanding. If the sales and use tax is not in effect for a continuing period of time, the final principal maturity date of qualifying bonds shall not extend beyond the final year that the tax is collected.

Sec. 519.02. (A) Except as otherwise provided in this section, in the interest of the public health and safety, the board of township trustees may regulate by resolution, in accordance with a comprehensive plan, the location, height, bulk, number of stories, and size of buildings and other structures, including tents, cabins, and trailer coaches, percentages of lot areas that may be occupied, set back building lines, sizes of yards, courts, and other open spaces, the density of population, the uses of buildings and other structures, including tents, cabins, and trailer coaches, and the uses of land for trade, industry, residence, recreation, or other purposes in the unincorporated territory of the township. Except as otherwise provided in this section, in the interest of the public convenience, comfort, prosperity, or general welfare, the board by resolution, in accordance with a comprehensive plan, may regulate the location of, set back lines for, and the uses of buildings and other structures, including tents, cabins, and trailer coaches, and the uses of land for trade, industry, residence, recreation, or other purposes in the unincorporated territory of the township, and may establish reasonable landscaping standards and architectural standards excluding exterior building materials in the unincorporated territory of the township. Except as otherwise provided in this section, in the interest of the public convenience, comfort, prosperity, or general welfare, the board may regulate by resolution, in accordance with a comprehensive plan, for nonresidential property only, the height, bulk, number of stories, and size of buildings and other structures, including tents, cabins, and trailer coaches, percentages of lot areas that may be occupied, sizes of yards, courts, and other open spaces, and the density of population in the unincorporated territory of the township. For all these purposes, the board may divide all or any part of the unincorporated territory of the township into districts or zones of such number, shape, and area as the board determines. All such regulations shall be uniform for each class or kind of building or other structure or use throughout any district or zone, but the
regulations in one district or zone may differ from those in other districts or zones.

For any activities permitted and regulated under Chapter 1513. or 1514. of the Revised Code and any related processing activities, the board of township trustees may regulate under the authority conferred by this section only in the interest of public health or safety. A zoning resolution authorized under this section shall provide for the activities that are permitted and regulated under Chapter 1514. of the Revised Code, and any related processing activities, as either a permitted use or a conditional use through the board of zoning appeals in any district or zone when such activities are to be added to an existing permit issued under Chapter 1514. of the Revised Code.

(B) A board of township trustees that pursuant to this chapter regulates adult entertainment establishments, as defined in section 2907.39 of the Revised Code, may modify its administrative zoning procedures with regard to adult entertainment establishments as the board determines necessary to ensure that the procedures comply with all applicable constitutional requirements.

Sec. 723.52. Before letting or making any contract for the construction, reconstruction, widening, resurfacing, or repair of a street or other public way, the director of public service in a city, or the legislative authority in a village, shall make an estimate of the cost of such work using the force account project assessment form developed by the auditor of state under section 117.16 of the Revised Code. In municipal corporations having an engineer, or an officer having a different title but the duties and functions of an engineer, the estimate shall be made by the engineer or other officer. Where the total estimated cost of any such work is thirty-seven thousand dollars or less, the proper officers may proceed by force account.

Where the total estimated cost of any such work exceeds thirty-seven thousand dollars, the proper officers of the municipal corporation shall be required to invite and receive competitive bids for furnishing all the labor, materials, and equipment and doing the work, after newspaper advertisement as provided by law. The officers shall consider and may reject such bids. If the bids are rejected, the officers may order the work done by force account or direct labor. When such bids are received, considered, and rejected, and the work done by force account or direct labor, such work shall be performed in compliance with the plans and specifications upon which the bids were based. It shall be unlawful to divide a street or connecting streets into separate sections for the purpose of defeating this section and section 723.53 of the Revised Code.

On the first day of July of every odd-numbered year beginning in 2021, the threshold amount established in this section shall increase by an amount not to exceed the lesser of three per cent, or the percentage amount of any increase in the department of transportation's construction cost index as annualized and totaled for the prior two-calendar years. The director of transportation shall notify each appropriate engineer or other officer of the increased amount.

"Street," as used in such sections, includes portions of connecting streets on which the same or similar construction, reconstruction, widening, resurfacing, or repair is planned or projected.

Sec. 746.01. As used in this chapter:

"Ferguson Act of 1869" means the act titled "An act relating to cities of the first class having a population exceeding one hundred and fifty thousand inhabitants" passed May 4, 1869, (66 O. (2) After the railway board of trustees has adopted the resolution described in division (A)(1) of this section, the railway board of trustees may adopt a resolution setting the date of the election in which the question of approval of the sale is to be submitted to the electors of the municipal corporation, along with the applicable ballot language as described in division (D) of this section. The date of the election shall be either the date of the primary or the general election in 2023 or 2024.

The board of trustees shall only sell a railway or portion of a railway upon approval by the electors of the municipal corporation, as described in divisions (B), (C), (D), and (E) of this section.

(B)(1) The railway board of trustees, upon adopting a resolution under division (A)(2) of this section, shall certify the resolution to the legislative authority of the municipal corporation and to the fiscal officer of the municipal corporation. E) If the question is approved by a majority of electors voting on the question, the railway board of trustees may proceed and take all necessary actions to complete the sale on terms consistent with those described in the resolution adopted under division (A) of this section. Notwithstanding any other provisions of the Revised Code, any net proceeds from a sale pursuant to this section shall be deposited into the trust fund established under section 746.03 of the Revised Code.

F) If the question is not approved by a majority of the electors voting on the question, the railway board of trustees shall not move forward with the sale and may not again submit to the electors a proposal to sell a railway or portion of a railway, unless otherwise authorized by the general assembly.

Sec. 746.03. (A) A railway board of trustees that sells a railway or any portion of a railway under section 746.02 of the Revised Code shall establish a railway proceeds trust fund for the purpose of receiving the net proceeds of the sale. The municipal corporation that owned the railway or portion of the railway before the sale shall be the sole beneficiary of the trust fund. Any funds in the trust fund shall not be considered part of the unencumbered balance or revenue of the subdivision under section 5705.35 or 5705.36 of the Revised Code.

(B) The railway board of trustees shall manage and administer the railway proceeds trust fund established under division (A) of this section as trustees, in accordance with this chapter and with ordinances passed by the legislative authority of the municipal corporation not in conflict with this chapter.

(C) Notwithstanding section 9.481 of the Revised Code, no individual may be appointed to the railway board of trustees after the effective date of this section unless the individual is a resident of the municipal corporation.

Sec. 746.04. (A) A railway board of trustees that establishes a trust fund under section 746.03 of the Revised Code may invest and reinvest the moneys and assets held in the trust fund, subject to this chapter. The railway board of trustees shall invest and reinvest under the prudent investor
standard of care, as described in section 5809.02 of the Revised Code.

(B) The railway board of trustees shall retain at least one independent financial advisor to assist the railway board of trustees in investing the trust fund. The railway board of trustees may retain managers, administrative staff, agents, attorneys, and employees, and engage advisors, as are appropriate and reasonable in relation to the assets of the trust fund, the purposes of the trust, and the skills and knowledge of the members of the railway board of trustees, in order to fulfill the board's duties and responsibilities in administering the trust fund. The railway board of trustees shall provide for payment of these and other reasonable expenses of administering the trust fund from the investment earnings on the trust fund.

(C) The railway board of trustees shall adopt management and investment policies containing objectives and criteria designed to ensure the trust fund is administered efficiently and self-sustaining, and that the money and assets in the trust fund are not diminished while providing the municipal corporation payments pursuant to section 746.05 of the Revised Code. These policies shall address asset allocation targets and ranges, risk factors, asset class benchmarks, eligible investments, time horizons, total return objectives, a strategy for long-term growth of the principal of the trust fund, competitive procurement processes, fees and administrative expenses, and performance evaluation guidelines.

The management and investment policies, and any amendments to those policies, shall be adopted after consultation with the fiscal officer of the municipal corporation.

The railway board of trustees shall make public any management and investment policies it adopts under this section.

(D) The railway board of trustees, following the creation of a trust fund under this chapter, shall report to the fiscal officer of the municipal corporation, each calendar year, the fiscal transactions of the trust fund for the calendar year, the amounts of accumulated moneys and securities, and the most recent balance sheet showing the financial condition of the fund by means of audited financial statements. The reports shall be delivered at such times, and shall be in a form and content, as reasonably requested by the fiscal officer of the municipal corporation.

(E) Except as otherwise provided in this chapter, no member of the railway board of trustees shall have any direct or indirect interest in the gains or profits of any investment made by the railway board of trustees. No member or person connected with the railway board of trustees directly or indirectly, for self or as an agent or partner of others, shall borrow any of the funds or deposits of the railway board of trustees or trust fund, or in any manner use the same except to make such current and necessary payments as are authorized by the railway board of trustees. No member or agent of the railway board of trustees shall become an indorser or surety or become in any manner an obligor for moneys loaned by or borrowed from the railway board of trustees.

(F) The railway board of trustees, and the management and investment of the trust fund, is not subject to Chapter 135., sections 731.56 to 731.59, or any other conflicting provisions of the Revised Code.

Sec. 746.05. (A) Not later than the thirtieth day of September of each year, the railway board of trustees shall certify to the municipal corporation the principal amount remaining in the trust fund, and the amount of funds that the railway board of trustees will disburse to the municipal corporation over the course of the municipal corporation's immediately following fiscal year. During the
municipal corporation's immediately following fiscal year, and with such frequency and in such
installments as may be determined by the railway board of trustees after consultation with the fiscal
officer of the municipal corporation, the railway board of trustees shall transmit to the municipal
corporation the certified amount.

(B) The railway board of trustees shall determine the amount transferred pursuant to this
section, which, except as provided in division (C) of this section, shall be not less than the amount
approved by the electors as provided in section 746.02 of the Revised Code, increased each year in
the manner set forth in the methodology approved pursuant to that section. Amounts transferred
pursuant to this section shall be paid from investment earnings of the trust fund after payments of
expenses incurred under section 746.04 of the Revised Code. If there are not sufficient investment
earnings in a year to pay the amount certified pursuant to this section, the railway board of trustees
shall remit the remainder of the certified amount to the municipal corporation from the principal
amount of the trust fund, except as provided in division (C) of this section.

(C) If the principal amount in the trust fund, as certified by the railway board of trustees
under division (A) of this section, is at an amount seventy-five per cent or less than the principal
amount in the trust fund certified by the railway board of trustees in the previous fiscal year under
division (A) of this section, the railway board of trustees shall cease making disbursements from the
trust fund to the municipal corporation. The railway board of trustees shall resume making
disbursements under this section when the railway board of trustees has certified to the municipal
corporation, under division (A) of this section, that the principal amount in the trust fund is equal to
or greater than the principal amount in the trust fund as certified by the railway board of trustees in
the fiscal year before the fiscal year in which disbursements ceased.

If the registrar determines that implementing such a program is feasible, the registrar shall adopt new rules under this division or amend existing rules adopted under this division as necessary in order to respond to advances in technology.
If international registration plan guidelines and provisions allow member jurisdictions to permit applications for registrations under the international registration plan to be made via the internet, the rules the registrar adopts under this division shall permit such action.

Sec. 4503.103. (A)(1) The registrar of motor vehicles may adopt rules to permit any person or lessee, other than a person receiving an apportioned license plate under the international registration plan, who owns or leases one or more motor vehicles to file a written application for registration for no more than five succeeding registration years. An order issued under this division shall require the owner to surrender to the registrar the certificate of registration and license plates for the vehicle named in the order within five days after its issuance. If the owner fails to do so within that time, the registrar shall certify that fact to the county sheriff or local police officials who shall recover the certificate of registration and license plates for the vehicle.

Sec. 4511.093. (A) A local authority may utilize a traffic law photo-monitoring device for the purpose of detecting traffic law violations. If the local authority is a county or township, the board of county commissioners or the board of township trustees may adopt such resolutions as may be necessary to enable the county or township to utilize traffic law photo-monitoring devices.

(B) The use of a traffic law photo-monitoring device is subject to the following conditions:
(1) A local authority shall use a traffic law photo-monitoring device to detect and enforce traffic law violations only if a law enforcement officer is present at the location of the device at all

(2) A law enforcement officer who is present at the location of any traffic law photo-monitoring device and who personally witnesses a traffic law violation may issue a ticket for the violation. (4) If the local authority utilizing traffic law photo-monitoring devices is a county or township, a law enforcement officer of the county or township shall use only a handheld traffic law photo-monitoring device held by the law enforcement officer.

(b) Upon any highway under the jurisdiction of the authority granting the permit except those highways with a condition insufficient to bear the weight of the vehicle or combination of vehicles as stated in the application.

Issuance of a special regional heavy hauling permit is subject to the payment of a fee established by the director or local authority in accordance with this section.

(2) In circumstances where a person is not eligible to receive a permit under division (A)(1) of this section, the director of transportation with respect to all highways that are a part of the state highway system and local authorities with respect to highways under their jurisdiction, upon application in writing and for good cause shown, may issue a special permit in writing authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in sections 5577.01 to 5577.09 of the Revised Code, or otherwise not in conformity with sections 4513.01 to 4513.37 of the Revised Code, upon any highway under the jurisdiction of the authority granting the permit.

(3) For purposes of this section, the director may designate certain state highways or portions of state highways as special economic development highways. If an application submitted to the director under this section involves travel of a nonconforming vehicle or combination of vehicles upon a special economic development highway, the director, in determining whether good cause has been shown that issuance of a permit is justified, shall consider the effect the travel of the vehicle or
combination of vehicles will have on the economic development in the area in which the designated highway or portion of highway is located.

(B)(1) Notwithstanding sections 715.22 and 723.01 of the Revised Code, the holder of a permit issued by the director under this section may move the vehicle or combination of vehicles described in the permit on any highway that is a part of the state highway system when the movement is partly within and partly without the corporate limits of a municipal corporation. No local authority shall require any other permit or license or charge any license fee or other charge against the holder of a permit for the movement of a vehicle or combination of vehicles on any highway that is a part of the state highway system. The director shall not require the holder of a permit issued by a local authority to obtain a special permit for the movement of vehicles or combination of vehicles on highways within the jurisdiction of the local authority. (3) The director and every county shall issue an annual permit under division (A)(2) of this section for:

(a) A vehicle or combination of vehicles that haul farm machinery, provided that the farm machinery otherwise qualifies for the farm equipment permit or a similar permit offered by the county for farm machinery or equipment;

(b) A vehicle or combination of vehicles that haul agricultural produce or agricultural production materials that otherwise could be hauled by farm machinery or equipment under the farm equipment permit or a similar permit offered by the county for farm machinery or equipment.

(C)(1) The application for a permit issued under this section shall be in the form that the director or local authority prescribes. The director or local authority may prescribe a permit fee to be imposed and collected when any permit described in this section is issued. The permit fee may be in an amount sufficient to reimburse the director or local authority for the administrative costs incurred in issuing the permit, and also to cover the cost of the normal and expected damage caused to the roadway or a street or highway structure as the result of the operation of the nonconforming vehicle or combination of vehicles. The director, in accordance with Chapter 119. of the Revised Code, shall establish a schedule of fees for permits issued by the director under this section; however, the fee to operate a triple trailer unit, at locations authorized under federal law, shall be one hundred dollars.

authority may issue or withhold a special permit specified in division (A)(2) of this section. If a
permit is to be issued, the director or local authority may limit or prescribe conditions of operation
for the vehicle and may require the posting of a bond or other security conditioned upon the
sufficiency of the permit fee to compensate for damage caused to the roadway or a street or highway
structure. In addition, a local authority, as a condition of issuance of an overweight permit, may
require the applicant to develop and enter into a mutual agreement with the local authority to
compensate for or to repair excess damage caused to the roadway by travel under the permit.

For a permit that will allow travel of a nonconforming vehicle or combination of vehicles on
a special economic development highway, the director, as a condition of issuance, may require the
applicant to agree to make periodic payments to the department to compensate for damage caused to
the roadway by travel under the permit.

(E) Every permit issued under this section shall be carried in the vehicle or combination of
vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of
any authority granting the permit. No person shall violate any of the terms of a permit.

   commercial motor vehicles or a rule or regulation adopted under such a law;

8. Accumulated repeated convictions under a law, rule, or regulation governing the
   movement of traffic over the public streets and highways;

9. Failed to pay any fees associated with any permitted operation or move;

10. Deliberately or willfully submitted false or misleading information in connection with
    the application for, or performance under, a permit issued under this section.

If the applicant is a partnership, association, or corporation, the director also may debar from
consideration for permits any partner of the partnership, or the officers, directors, or employees of the
association or corporation being debarred.

The director may adopt rules in accordance with Chapter 119. of the Revised Code governing
the debarment of an applicant.

(G) When the director reasonably believes that grounds for debarment exist, the director shall send the person that is subject to debarment a notice of the proposed debarment. A notice of proposed debarment shall indicate the grounds for the debarment of the person and the procedure for requesting a hearing. The notice and hearing shall be in accordance with Chapter 119. of the Revised Code. If the person does not respond with a request for a hearing in the manner specified in that chapter, the director shall issue the debarment decision without a hearing and shall notify the person of the decision by certified mail, return receipt requested. The debarment period may be of any length determined by the director, and the director may modify or rescind the debarment at any time. During the period of debarment, the director shall not issue, or consider issuing, a permit under this section to any partnership, association, or corporation that is affiliated with a debarred person. After the debarment period expires, the person, and any partnership, association, or corporation affiliated with the person, may reapply for a permit.

(I) Whoever violates division (H) of this section shall be punished as provided in section 4513.99 of the Revised Code.

(J) A permit issued by the department of transportation or a local authority under this section for the operation of a vehicle or combination of vehicles is valid for the purposes of the vehicle operation in accordance with the conditions and limitations specified on the permit. Such a permit is voidable by law enforcement only for operation of a vehicle or combination of vehicles in violation of the weight, dimension, or route provisions of the permit. However, a permit is not voidable for operation in violation of a route provision of a permit if the operation is upon the order of a law enforcement officer.

(2) Any expired, nonworking, or outdated wayside detector system or component parts of a system are removed and replaced with new parts or an entirely new system that reflects the current best practices and standards of the industry.
(3) The distance between wayside detector systems is appropriate when accounting for the requirements of section 4955.51 of the Revised Code, the natural terrain surrounding the railroad track on which the railroad operates, and the safety of the trains, rolling stock, on-track equipment, their operators, their passengers, and the persons and property in the vicinity of such railroad track so that if defects are detected operators have sufficient time to do the following:

(C) If a railroad company refuses to work or otherwise cooperate with the public utilities commission and the department of transportation in good faith in accordance with this section, the commission and department shall investigate that railroad company's safety practices and standards in accordance with 49 C.F.R. Part 212. The commission and department shall determine whether the company appears to be in compliance with federal railroad safety laws, as defined in 49 C.F.R. Part 209.

standards based on an investigation conducted under division (C) of this section, not later than sixty days after the conclusion of the investigation, the commission and department shall make a report to the federal railroad administration. The report shall detail the results of the investigation and recommend that the administration take enforcement action in accordance with its authority against the railroad company for the safety violations discovered through that investigation.

(2) The commission and department shall send a copy of the report to the governor, the president of the senate, the speaker of the house of representatives, and the minority leaders of both the senate and the house of representatives.

(2) If the natural terrain does not allow for the placement of the next adjacent system location within ten miles from the prior system location, the next adjacent system location shall be installed not more than fifteen miles from the prior system location.

(B) When a wayside detector system detects a defect in a passing train, rolling stock, on-track equipment, or its component equipment and parts, if the message regarding the defect is not immediately sent to the operator of that train, rolling stock, or on-track equipment, the person that receives the message shall immediately notify the operator of the defect.

(C) The department of transportation and the public utilities commission, as part of their work with each railroad company under division (B) of section 4955.50 of the Revised Code, shall ensure both of the following:

(3) The end of the fiscal year for each fiscal year that the loan or the project is still pending.

(B) The department shall require the recipient of the loan or grant to assist in preparing the expense reports and itemizing the uses of the loan or grant money issued to that recipient.

(C) The department shall include its administrative expenses in managing the loan or grant program in the expense reports submitted in accordance with this section.

(D) If any content required for inclusion in an expense report under this section is the same content that the department submits to the Ohio state and local government expenditure database established under sections 113.70 to 113.77 of the Revised Code, the department may send copies of that content to the president of the senate and speaker of the house of representatives in lieu of including it in a report under this section.

Sec. 5501.60. (A) When the boundaries of two municipal corporations are adjacent, the
department of transportation shall ensure that limited access exit and entrance interchanges to an interstate highway located in those municipal corporations are constructed at intervals of at least one interchange every four and one-half miles when the following conditions exist:

Sec. 5517.011. (A) Notwithstanding section 5517.01 of the Revised Code, the director of transportation may establish a program to expedite the sale and construction of special projects by combining the design and construction elements of a highway or bridge project projects for transportation facilities as defined in section 5501.01 of the Revised Code into a single contract. The director shall prepare and distribute a scope of work document upon which the bidders shall base their bids. Except in regard to those requirements relating to providing plans, the director shall award contracts under this section in accordance with Chapter 5525. of the Revised Code.

(B) Notwithstanding any provision of Chapter 5525. of the Revised Code, the director may use a value-based selection process, combining technical qualifications and competitive bidding elements, including consideration for minority or disadvantaged businesses that may include joint ventures, when letting special projects that contain both design and construction elements of a transportation project into a single contract. If award of a contract to the best-value bidder is not in the best interest of the state, the director may do either of the following after requesting and obtaining the approval of the controlling board:

1. Accept another bid;
2. Reject all bids and then advertise for other bids.
3. The total dollar value of contracts made under this section shall not exceed one billion dollars per fiscal year. The director may provide compensation for preparation of a responsive preliminary design concept to not more than two bidders who, after the successful bidder, submitted the next best bids. The director may establish policies or procedures necessary to determine the
amount of compensation to be provided for each project and the method of evaluating the value of the preliminary design concept submitted, but in no instance may the compensation exceed the value of such concept.

(D)(1) Notwithstanding division (C) of this section, the director may award contracts under this section for a bridge project that spans the Ohio river for an amount not to exceed one billion five hundred million dollars. The project may include both of the following:

(a) The replacement, addition, improvement, or rehabilitation of a bridge or a system of bridges over the Ohio river;
(b) The replacement, addition, improvement, or rehabilitation of roadways providing for ingress to and egress from the bridge or system of bridges over the Ohio river within this state and any adjoining state.

(2) If the amount of the contracts entered into under division (D)(1) of this section exceeds one billion five hundred million dollars, the director shall appear before the controlling board to request additional contracting authority beyond the one billion five hundred million dollar threshold. The controlling board may approve the request at its discretion.

(3) The director may provide compensation for preparation of a responsive preliminary design concept under division (D) of this section to not more than three bidders. The director may establish policies or procedures necessary to determine the amount of compensation to be provided for the project and the method of evaluating the value of the preliminary design concept submitted, but in no instance may the compensation exceed the cost to develop such concept.

(4) The authority granted under division (D) of this section is granted for the purposes of any application for available federal funding. Any such federal funding awarded shall be expended only pursuant to appropriations made by the general assembly after the effective date of this amendment August 31, 2022.

Sec. 5525.16. (A) Before entering into a contract, the director of transportation shall require a contract performance bond and a payment bond with sufficient sureties, as follows:

(1) A contract performance bond in an amount equal to one hundred per cent of the contract amount, conditioned, among other things, that the contractor will perform the work upon the terms proposed, within the time prescribed, and in accordance with the plans and specifications, will indemnify the state against any damage that may result from any failure of the contractor to so perform, and, further, in case of a grade separation will indemnify any railroad company involved against any damage that may result by reason of the negligence of the contractor in making the improvement.

(2) A payment bond in an amount equal to one hundred per cent of the contract amount, conditioned for the payment by the contractor and all subcontractors for labor or work performed or materials furnished in connection with the work, improvement, or project involved.

(B) After entering into a contract and the initial issuance of a contract performance bond and payment bond in accordance with division (A) of this section, both of the following apply, as applicable:

(1) If the contract amount increases or decreases by forty thousand dollars or more during the term of the contract, the final bond amount shall be adjusted to account for the change from the original contract value to the actual final contract value. The director shall do all of the following:
(a) Determine the final bond premium amount for the contract performance bond and payment bond based on the actual final contract value;

(b) Finalize any bond premium adjustments after receiving written consent from the affected sureties confirming that the sureties increased or decreased the penal sums, as applicable;

(c) Determine what, if any, additional payments or refunds are necessary under the contract as a result of the adjusted final bond premium amount.

(2) A contractor shall provide the director with new surety bonds, in the form and amount required by this section, within twenty-one days of any of the following occurring to a surety providing a surety bond for the project:

(a) It is adjudged bankrupt or has made a general assignment for the benefit of its creditors;

(b) It has liquidated all assets or has made a general assignment for the benefit of its creditors;

(c) It is placed in receivership;

(d) It petitions a state or federal court for protection from its creditors;

(e) It allows its license to do business in this state to lapse or to be revoked.

(C)(1) In no case is the state liable for damages sustained in the construction of any work, improvement, or project under this chapter and Chapters 5501., 5503., 5511., 5513., 5515., 5516., 5517., 5519., 5521., 5523., 5527., 5528., 5529., 5531., 5533., and 5535. of the Revised Code.

(2) This section does not require the director to take bonds as described in division (A) or (B) of this section in connection with any force account work, but the director may require those bonds in connection with force account work.

(3) If any bonds taken under this section are executed by a surety company, the director may not approve such bonds unless there is attached a certificate of the superintendent of insurance that the company is authorized to transact business in this state, and a copy of the power of attorney of the agent of the company. The superintendent, upon request, shall issue to any licensed agent of such company the certificate without charge.

(4) The bonds required to be taken under this section shall be executed by the same surety, approved by the director as to sufficiency of the sureties, and be in the form prescribed by the attorney general.

(C)–(D) Any person to whom any money is due for labor or work performed or materials furnished in connection with a work, improvement, or project, at any time after performing the labor or furnishing the materials but not later than ninety days after the acceptance of the work, improvement, or project by the director, may furnish to the sureties on the payment bond a statement of the amount due the person. If the indebtedness is not paid in full at the expiration of sixty days after the statement is furnished, the person may commence an action in the person's own name upon the bond as provided in sections 2307.06 and 2307.07 of the Revised Code.

An action shall not be commenced against the sureties on a payment bond until sixty days after the furnishing of the statement described in this section or, notwithstanding section 2305.12 of the Revised Code, later than one year after the date of the acceptance of the work, improvement, or project.

(D)–(E) When the total contract amount is greater than five hundred million dollars, the director may authorize either of the following for purposes of meeting the requirements of division
(A) of this section:

(1) The issuance of multiple contract performance bonds or multiple contract payment bonds to meet the requirement that the bonding amount equals one hundred per cent of the contract amount;

(2) The issuance of contract performance bonds and contract payment bonds in succession to align with the phases of the contract to meet the requirement that the bonding amount equals one hundred per cent of the contract amount.

(F) As used in this section, "improvement,"

(1) "Improvement," "subcontractor," "material supplier," and "materials" have the same meanings as in section 1311.01 of the Revised Code, and "contractor" has the same meaning as "original contractor" as defined in that section.

(2) "Actual final contract value" is the final sum of money, excluding any bond premium adjustments, that is paid by the department to the contractor as a result of the contractor completing the agreed upon work.

Sec. 5531.09. (A) As used in this section and section 5531.10 of the Revised Code:

(1) "Qualified project" means any public or private transportation project as determined by the director of transportation, including, without limitation, planning, environmental impact studies, engineering, construction, reconstruction, resurfacing, restoring, rehabilitation, or replacement of public or private transportation facilities within the state, studying the feasibility thereof, and the acquisition of real or personal property or interests therein; any highway, public transit, aviation, rail, or other transportation project eligible for financing or aid under any federal or state program; and any project involving the maintaining, repairing, improving, or construction of any public or private highway, road, street, parkway, public transit, aviation, or rail project, and any related rights-of-way, bridges, tunnels, railroad-highway crossings, drainage structures, signs, guardrails, or protective structures.

(2) "Small municipal corporation" means a municipal corporation that is determined by the department of transportation to be an eligible small city in accordance with the department's small city program.

(B) The state infrastructure bank shall consist of the highway and transit infrastructure bank fund, the aviation infrastructure bank fund, the rail infrastructure bank fund, and the infrastructure bank obligations fund, which are hereby created as funds of the state treasury, to be administered by the director of transportation and used for the purposes described in division (B)-(C) of this section. The highway and transit infrastructure bank fund, the aviation infrastructure bank fund, and the rail infrastructure bank fund shall consist of federal grants and awards or other assistance received by the state and eligible for deposit therein under applicable federal law, payments received by the department in connection with providing financial assistance for qualifying projects under division (B)-(C) of this section, and such other amounts as may be provided by law. The infrastructure bank obligations fund shall consist of such amounts of the proceeds of obligations issued under section 5531.10 of the Revised Code as the director of transportation determines with the advice of the director of budget and management; and such other amounts as may be provided by law. The director of budget and management, upon the request of the director of transportation, may transfer amounts between the funds created in this division, except the infrastructure bank obligations fund. The investment earnings of each fund created by this division shall be credited to such fund.
The director of transportation shall use the state infrastructure bank to encourage public and private investment in transportation facilities that contribute to the multi-modal and intermodal transportation capabilities of the state, develop a variety of financing techniques designed to expand the availability of funding resources and to reduce direct state costs, maximize private and local participation in financing projects, and improve the efficiency of the state transportation system by using and developing the particular advantages of each transportation mode to the fullest extent. In furtherance of these purposes, the director shall use the state infrastructure bank to provide financial assistance to public or private entities for qualified projects. Such assistance shall be in the form of loans, loan guarantees, letters of credit, leases, lease-purchase agreements, interest rate subsidies, debt service reserves, and such other forms as the director determines to be appropriate. All fees, charges, rates of interest, payment schedules, security for, and other terms and conditions relating to such assistance shall be determined by the director. Any loan made to a small municipal corporation from the state infrastructure bank shall be a zero interest loan.

The director of transportation shall adopt rules establishing guidelines necessary for the implementation and exercise of the authority granted by this section, including rules for receiving, reviewing, evaluating, and selecting projects for which financial assistance may be approved.

As used in this section and in section 5531.10 of the Revised Code, "qualified project" means any public or private transportation project as determined by the director of transportation, including, without limitation, planning, environmental impact studies, engineering, construction, reconstruction, resurfacing, restoring, rehabilitation, or replacement of public or private transportation facilities within the state, studying the feasibility thereof, and the acquisition of real or personal property or interests therein; any highway, public transit, aviation, rail, or other transportation project eligible for financing or aid under any federal or state program; and any project involving the maintaining, repairing, improving, or construction of any public or private highway, road, street, parkway, public transit, aviation, or rail project, and any related rights of way, bridges, tunnels, railroad highway crossings, drainage structures, signs, guardrails, or protective structures.

The general assembly finds that state infrastructure projects, as defined in division (A)(8) of section 5531.10 of the Revised Code, and the state infrastructure bank, will materially contribute to the economic revitalization of areas of the state and result in improving the economic welfare of all the people of the state. Accordingly, it is declared to be the public purpose of the state, through operations under sections 5531.09 and 5531.10 of the Revised Code, and other applicable laws adopted pursuant to Section 13 of Article VIII, Ohio Constitution, and other authority vested in the general assembly, to assist in and facilitate the purposes set forth in division (B) of section 5531.10 of the Revised Code, and to assist and cooperate with any governmental agency in achieving such purposes.

Sec. 5531.10. (A) As used in this chapter:
(1) "Bond proceedings" means the resolution, order, trust agreement, indenture, lease, lease-purchase agreements, and other agreements, amendments and supplements to the foregoing, or any one or more or combination thereof, authorizing or providing for the terms and conditions applicable to, or providing for the security or liquidity of, obligations issued pursuant to this section, and the provisions contained in such obligations.
(2) "Bond service charges" means principal, including mandatory sinking fund requirements for retirement of obligations, and interest, and redemption premium, if any, required to be paid by the state on obligations.

(3) "Bond service fund" means the applicable fund and accounts therein created for and pledged to the payment of bond service charges, which may be, or may be part of, the state infrastructure bank revenue bond service fund created by division (R) of this section including all moneys and investments, and earnings from investments, credited and to be credited thereto.

(4) "Issuing authority" means the treasurer of state, or the officer who by law performs the functions of the treasurer of state.

(5) "Obligations" means bonds, notes, or other evidence of obligation including interest coupons pertaining thereto, issued pursuant to this section.

(6) "Pledged receipts" means moneys accruing to the state from the lease, lease-purchase, sale, or other disposition, or use, of qualified projects, and from the repayment, including interest, of loans made from proceeds received from the sale of obligations; accrued interest received from the sale of obligations; income from the investment of the special funds; any gifts, grants, donations, and pledges, and receipts therefrom, available for the payment of bond service charges; and any amounts in the state infrastructure bank pledged to the payment of such charges. If the amounts in the state infrastructure bank are insufficient for the payment of such charges, "pledged receipts" also means moneys that are apportioned by the United States secretary of transportation under United States Code, Title XXIII, as amended, or any successor legislation, or under any other federal law relating to aid for highways, and that are to be received as a grant by the state, to the extent the state is not prohibited by state or federal law from using such moneys and the moneys are pledged to the payment of such bond service charges.

(7) "Special funds" or "funds" means, except where the context does not permit, the bond service fund, and any other funds, including reserve funds, created under the bond proceedings, and the state infrastructure bank revenue bond service fund created by division (R) of this section to the extent provided in the bond proceedings, including all moneys and investments, and earnings from investment, credited and to be credited thereto.

(8) "State infrastructure project" means any public transportation project undertaken by the state, including, but not limited to, all components of any such project, as described in division (A)(1) of section 5531.09 of the Revised Code.

(9) "District obligations" means bonds, notes, or other evidence of obligation including interest coupons pertaining thereto, issued to finance a qualified project by a transportation improvement district created pursuant to section 5540.02 of the Revised Code, of which the principal, including mandatory sinking fund requirements for retirement of such obligations, and interest and redemption premium, if any, are payable by the department of transportation.

(B) The issuing authority, after giving written notice to the director of budget and management and upon the certification by the director of transportation to the issuing authority of the amount of moneys or additional moneys needed either for state infrastructure projects or to provide financial assistance for any of the purposes for which the state infrastructure bank may be used under section 5531.09 of the Revised Code, or needed for capitalized interest, funding reserves, and paying costs and expenses incurred in connection with the issuance, carrying, securing, paying, redeeming,
or retirement of the obligations or any obligations refunded thereby, including payment of costs and expenses relating to letters of credit, lines of credit, insurance, put agreements, standby purchase agreements, indexing, marketing, remarketing and administrative arrangements, interest swap or hedging agreements, and any other credit enhancement, liquidity, remarketing, renewal, or refunding arrangements, all of which are authorized by this section, shall issue obligations of the state under this section in the required amount. The proceeds of such obligations, except for the portion to be deposited in special funds, including reserve funds, as may be provided in the bond proceedings, shall as provided in the bond proceedings be credited to the infrastructure bank obligations fund of the state infrastructure bank created by section 5531.09 of the Revised Code and disbursed as provided in the bond proceedings for such obligations. The issuing authority may appoint trustees, paying agents, transfer agents, and authenticating agents, and may retain the services of financial advisors, accounting experts, and attorneys, and retain or contract for the services of marketing, remarketing, indexing, and administrative agents, other consultants, and independent contractors, including printing services, as are necessary in the issuing authority's judgment to carry out this section. The costs of such services are payable from funds of the state infrastructure bank or as otherwise provided in the bond proceedings.

(C) The holders or owners of such obligations shall have no right to have moneys raised by taxation by the state of Ohio obligated or pledged, and moneys so raised shall not be obligated or pledged, for the payment of bond service charges. The right of such holders and owners to the payment of bond service charges is limited to all or that portion of the pledged receipts and those special funds pledged thereto pursuant to the bond proceedings for such obligations in accordance with this section, and each such obligation shall bear on its face a statement to that effect. Moneys received as repayment of loans made by the state infrastructure bank pursuant to section 5531.09 of the Revised Code shall not be considered moneys raised by taxation by the state of Ohio regardless of the source of the moneys.

(D) Obligations shall be authorized by order of the issuing authority and the bond proceedings shall provide for the purpose thereof and the principal amount or amounts, and shall provide for or authorize the manner or agency for determining the principal maturity or maturities, not exceeding twenty-five years from the date of issuance or, with respect to obligations issued to finance a transportation facility pursuant to a public-private agreement, not exceeding forty-five years from the date of issuance, the interest rate or rates or the maximum interest rate, the date of the obligations and the dates of payment of interest thereon, their denomination, and the establishment within or without the state of a place or places of payment of bond service charges. Sections 9.98 to 9.983 of the Revised Code are applicable to obligations issued under this section. The purpose of such obligations may be stated in the bond proceedings in terms describing the general purpose or purposes to be served. The bond proceedings also shall provide, subject to the provisions of any other applicable bond proceedings, for the pledge of all, or such part as the issuing authority may determine, of the pledged receipts and the applicable special fund or funds to the payment of bond service charges, which pledges may be made either prior or subordinate to other expenses, claims, or payments, and may be made to secure the obligations on a parity with obligations theretofore or thereafter issued, if and to the extent provided in the bond proceedings. The pledged receipts and special funds so pledged and thereafter received by the state immediately are subject to the lien of
such pledge without any physical delivery thereof or further act, and the lien of any such pledges is valid and binding against all parties having claims of any kind against the state or any governmental agency of the state, irrespective of whether such parties have notice thereof, and shall create a perfected security interest for all purposes of Chapter 1309. of the Revised Code, without the necessity for separation or delivery of funds or for the filing or recording of the bond proceedings by which such pledge is created or any certificate, statement, or other document with respect thereto; and the pledge of such pledged receipts and special funds is effective and the money therefrom and thereof may be applied to the purposes for which pledged without necessity for any act of appropriation. Every pledge, and every covenant and agreement made with respect thereto, made in the bond proceedings may therein be extended to the benefit of the owners and holders of obligations authorized by this section, and to any trustee therefor, for the further security of the payment of the bond service charges.

For purposes of this division, "transportation facility" and "public-private agreement" have the same meanings as in section 5501.70 of the Revised Code.

(E) The bond proceedings may contain additional provisions as to:
(1) The redemption of obligations prior to maturity at the option of the issuing authority at such price or prices and under such terms and conditions as are provided in the bond proceedings;
(2) Other terms of the obligations;
(3) Limitations on the issuance of additional obligations;
(4) The terms of any trust agreement or indenture securing the obligations or under which the same may be issued;
(5) The deposit, investment, and application of special funds, and the safeguarding of moneys on hand or on deposit, without regard to Chapter 131. or 135. of the Revised Code, but subject to any special provisions of this section with respect to particular funds or moneys, provided that any bank or trust company which acts as depository of any moneys in the special funds may furnish such indemnifying bonds or may pledge such securities as required by the issuing authority;
(6) Any or every provision of the bond proceedings being binding upon such officer, board, commission, authority, agency, department, or other person or body as may from time to time have the authority under law to take such actions as may be necessary to perform all or any part of the duty required by such provision;
(7) Any provision that may be made in a trust agreement or indenture;
(8) Any other or additional agreements with the holders of the obligations, or the trustee therefor, relating to the obligations or the security therefor, including the assignment of mortgages or other security relating to financial assistance for qualified projects under section 5531.09 of the Revised Code.

(F) The obligations may have the great seal of the state or a facsimile thereof affixed thereto or printed thereon. The obligations and any coupons pertaining to obligations shall be signed or bear the facsimile signature of the issuing authority. Any obligations or coupons may be executed by the person who, on the date of execution, is the proper issuing authority although on the date of such bonds or coupons such person was not the issuing authority. In case the issuing authority whose signature or a facsimile of whose signature appears on any such obligation or coupon ceases to be the issuing authority before delivery thereof, such signature or facsimile nevertheless is valid and
sufficient for all purposes as if the former issuing authority had remained the issuing authority until such delivery; and in case the seal to be affixed to obligations has been changed after a facsimile of the seal has been imprinted on such obligations, such facsimile seal shall continue to be sufficient as to such obligations and obligations issued in substitution or exchange therefor.

(G) All obligations are negotiable instruments and securities under Chapter 1308. of the Revised Code, subject to the provisions of the bond proceedings as to registration. The obligations may be issued in coupon or in registered form, or both, as the issuing authority determines. Provision may be made for the registration of any obligations with coupons attached thereto as to principal alone or as to both principal and interest, their exchange for obligations so registered, and for the conversion or reconversion into obligations with coupons attached thereto of any obligations registered as to both principal and interest, and for reasonable charges for such registration, exchange, conversion, and reconversion.

(H) Obligations may be sold at public sale or at private sale, as determined in the bond proceedings.

(I) Pending preparation of definitive obligations, the issuing authority may issue interim receipts or certificates which shall be exchanged for such definitive obligations.

(J) In the discretion of the issuing authority, obligations may be secured additionally by a trust agreement or indenture between the issuing authority and a corporate trustee which may be any trust company or bank possessing corporate trust powers that has a place of business within or without the state. Any such agreement or indenture may contain the order authorizing the issuance of the obligations, any provisions that may be contained in any bond proceedings, and other provisions which are customary or appropriate in an agreement or indenture of such type, including, but not limited to:

(1) Maintenance of each pledge, trust agreement, indenture, or other instrument comprising part of the bond proceedings until the state has fully paid the bond service charges on the obligations secured thereby, or provision therefor has been made;

(2) In the event of default in any payments required to be made by the bond proceedings, or any other agreement of the issuing authority made as a part of the contract under which the obligations were issued, enforcement of such payments or agreement by mandamus, the appointment of a receiver, suit in equity, action at law, or any combination of the foregoing;

(3) The rights and remedies of the holders of obligations and of the trustee, and provisions for protecting and enforcing them, including limitations on the rights of individual holders of obligations;

(4) The replacement of any obligations that become mutilated or are destroyed, lost, or stolen;

(5) Such other provisions as the trustee and the issuing authority agree upon, including limitations, conditions, or qualifications relating to any of the foregoing.

(K) Any holder of obligations or a trustee under the bond proceedings, except to the extent that the holder's or trustee's rights are restricted by the bond proceedings, may by any suitable form of legal proceedings, protect and enforce any rights under the laws of this state or granted by such bond proceedings. Such rights include the right to compel the performance of all duties of the issuing authority and the director of transportation required by the bond proceedings or sections 5531.09 and
5531.10 of the Revised Code; to enjoin unlawful activities; and in the event of default with respect to the payment of any bond service charges on any obligations or in the performance of any covenant or agreement on the part of the issuing authority or the director of transportation in the bond proceedings, to apply to a court having jurisdiction of the cause to appoint a receiver to receive and administer the pledged receipts and special funds, other than those in the custody of the treasurer of state, which are pledged to the payment of the bond service charges on such obligations or which are the subject of the covenant or agreement, with full power to pay, and to provide for payment of bond service charges on, such obligations, and with such powers, subject to the direction of the court, as are accorded receivers in general equity cases, excluding any power to pledge additional revenues or receipts or other income or moneys of the state or local governmental entities, or agencies thereof, to the payment of such principal and interest and excluding the power to take possession of, mortgage, or cause the sale or otherwise dispose of any project facilities.

Each duty of the issuing authority and the issuing authority's officers and employees, and of each state or local governmental agency and its officers, members, or employees, undertaken pursuant to the bond proceedings or any loan, loan guarantee, lease, lease-purchase agreement, or other agreement made under authority of section 5531.09 of the Revised Code, and in every agreement by or with the issuing authority, is hereby established as a duty of the issuing authority, and of each such officer, member, or employee having authority to perform such duty, specifically enjoined by the law resulting from an office, trust, or station within the meaning of section 2731.01 of the Revised Code.

The person who is at the time the issuing authority, or the issuing authority's officers or employees, are not liable in their personal capacities on any obligations issued by the issuing authority or any agreements of or with the issuing authority.

(L) The issuing authority may authorize and issue obligations for the refunding, including funding and retirement, and advance refunding with or without payment or redemption prior to maturity, of any obligations previously issued by the issuing authority or district obligations. Such refunding obligations may be issued in amounts sufficient for payment of the principal amount of the prior obligations or district obligations, any redemption premiums thereon, principal maturities of any such obligations or district obligations maturing prior to the redemption of the remaining obligations or district obligations on a parity therewith, interest accrued or to accrue to the maturity dates or dates of redemption of such obligations or district obligations, and any expenses incurred or to be incurred in connection with such issuance and such refunding, funding, and retirement. Subject to the bond proceedings therefor, the portion of proceeds of the sale of refunding obligations issued under this division to be applied to bond service charges on the prior obligations or district obligations shall be credited to an appropriate account held by the trustee for such prior or new obligations or to the appropriate account in the bond service fund for such obligations or district obligations. Obligations authorized under this division shall be deemed to be issued for those purposes for which such prior obligations or district obligations were issued and are subject to the provisions of this section pertaining to other obligations, except as otherwise provided in this section. The last maturity of obligations authorized under this division shall not be later than the latest permitted maturity of the original securities issued for the original purpose.

(M) The authority to issue obligations under this section includes authority to issue
obligations in the form of bond anticipation notes and to renew the same from time to time by the issuance of new notes. The holders of such notes or interest coupons pertaining thereto shall have a right to be paid solely from the pledged receipts and special funds that may be pledged to the payment of the bonds anticipated, or from the proceeds of such bonds or renewal notes, or both, as the issuing authority provides in the order authorizing such notes. Such notes may be additionally secured by covenants of the issuing authority to the effect that the issuing authority and the state will do such or all things necessary for the issuance of such bonds or renewal notes in the appropriate amount, and apply the proceeds thereof to the extent necessary, to make full payment of the principal of and interest on such notes at the time or times contemplated, as provided in such order. For such purpose, the issuing authority may issue bonds or renewal notes in such principal amount and upon such terms as may be necessary to provide funds to pay when required the principal of and interest on such notes, notwithstanding any limitations prescribed by or for purposes of this section. Subject to this division, all provisions for and references to obligations in this section are applicable to notes authorized under this division.

The issuing authority in the bond proceedings authorizing the issuance of bond anticipation notes shall set forth for such bonds an estimated interest rate and a schedule of principal payments for such bonds and the annual maturity dates thereof.

(N) Obligations issued under this section are lawful investments for banks, societies for savings, savings and loan associations, deposit guarantee associations, trust companies, trustees, fiduciaries, insurance companies, including domestic for life and domestic not for life, trustees or other officers having charge of sinking and bond retirement or other special funds of political subdivisions and taxing districts of this state, the commissioners of the sinking fund of the state, the administrator of workers' compensation, the state teachers retirement system, the public employees retirement system, the school employees retirement system, and the Ohio police and fire pension fund, notwithstanding any other provisions of the Revised Code or rules adopted pursuant thereto by any agency of the state with respect to investments by them, and are also acceptable as security for the deposit of public moneys.

(O) Unless otherwise provided in any applicable bond proceedings, moneys to the credit of or in the special funds established by or pursuant to this section may be invested by or on behalf of the issuing authority only in notes, bonds, or other obligations of the United States, or of any agency or instrumentality of the United States, obligations guaranteed as to principal and interest by the United States, obligations of this state or any political subdivision of this state, and certificates of deposit of any national bank located in this state and any bank, as defined in section 1101.01 of the Revised Code, subject to inspection by the superintendent of financial institutions. If the law or the instrument creating a trust pursuant to division (J) of this section expressly permits investment in direct obligations of the United States or an agency of the United States, unless expressly prohibited by the instrument, such moneys also may be invested in no-front-end-load money market mutual funds consisting exclusively of obligations of the United States or an agency of the United States and in repurchase agreements, including those issued by the fiduciary itself, secured by obligations of the United States or an agency of the United States; and in collective investment funds as defined in division (A) of section 1111.01 of the Revised Code and consisting exclusively of any such securities. The income from such investments shall be credited to such funds as the issuing authority
determines, and such investments may be sold at such times as the issuing authority determines or
authorizes.

(P) Provision may be made in the applicable bond proceedings for the establishment of
separate accounts in the bond service fund and for the application of such accounts only to the
specified bond service charges on obligations pertinent to such accounts and bond service fund and
for other accounts therein within the general purposes of such fund. Unless otherwise provided in any
applicable bond proceedings, moneys to the credit of or in the several special funds established
pursuant to this section shall be disbursed on the order of the treasurer of state, provided that no such
order is required for the payment from the bond service fund when due of bond service charges on
obligations.

(Q)(1) The issuing authority may pledge all, or such portion as the issuing authority
determines, of the pledged receipts to the payment of bond service charges on obligations issued
under this section, and for the establishment and maintenance of any reserves, as provided in the
bond proceedings, and make other provisions therein with respect to pledged receipts as authorized
by this chapter, which provisions are controlling notwithstanding any other provisions of law
pertaining thereto.

(2) An action taken under division (Q)(2) of this section does not limit the generality of
division (Q)(1) of this section, and is subject to division (C) of this section and, if and to the extent
otherwise applicable, Section 13 of Article VIII, Ohio Constitution. The bond proceedings may
contain a covenant that, in the event the pledged receipts primarily pledged and required to be used
for the payment of bond service charges on obligations issued under this section, and for the
establishment and maintenance of any reserves, as provided in the bond proceedings, are insufficient
to make any such payment in full when due, or to maintain any such reserve, the director of
transportation shall so notify the governor, and shall determine to what extent, if any, the payment
may be made or moneys may be restored to the reserves from lawfully available moneys previously
appropriated for that purpose to the department of transportation. The covenant also may provide that
if the payments are not made or the moneys are not immediately and fully restored to the reserves
from such moneys, the director shall promptly submit to the governor and to the director of budget
and management a written request for either or both of the following:

(a) That the next biennial budget submitted by the governor to the general assembly include
an amount to be appropriated from lawfully available moneys to the department for the purpose of
and sufficient for the payment in full of bond service charges previously due and for the full
replenishment of the reserves;

(b) That the general assembly be requested to increase appropriations from lawfully available
moneys for the department in the current biennium sufficient for the purpose of and for the payment
in full of bond service charges previously due and to come due in the biennium and for the full
replenishment of the reserves.

The director of transportation shall include with such requests a recommendation that the
payment of the bond service charges and the replenishment of the reserves be made in the interest of
maximizing the benefits of the state infrastructure bank. Any such covenant shall not obligate or
purport to obligate the state to pay the bond service charges on such bonds or notes or to deposit
moneys in a reserve established for such payments other than from moneys that may be lawfully
available and appropriated for that purpose during the then-current biennium.

(R) There is hereby created the state infrastructure bank revenue bond service fund, which shall be in the custody of the treasurer of state but shall not be a part of the state treasury. All moneys received by or on account of the issuing authority or state agencies and required by the applicable bond proceedings, consistent with this section, to be deposited, transferred, or credited to the bond service fund, and all other moneys transferred or allocated to or received for the purposes of the fund, shall be deposited and credited to such fund and to any separate accounts therein, subject to applicable provisions of the bond proceedings, but without necessity for any act of appropriation. The state infrastructure bank revenue bond service fund is a trust fund and is hereby pledged to the payment of bond service charges to the extent provided in the applicable bond proceedings, and payment thereof from such fund shall be made or provided for by the treasurer of state in accordance with such bond proceedings without necessity for any act of appropriation.

(S) The obligations issued pursuant to this section, the transfer thereof, and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation within this state.

Sec. 5540.02. (A) A transportation improvement district may be created by the board of county commissioners of a county. The board, by resolution, shall determine the structure of the board of trustees of the transportation improvement district it creates by adopting the structure contained either in division (C)(1) or (2) of this section.

(B) A transportation improvement district is a body both corporate and politic, and the exercise by it of the powers conferred by this chapter in the financing, construction, maintenance, repair, and operation of a project are and shall be held to be essential governmental functions.

(C)(1) If the board of county commissioners so elects, a transportation improvement district shall be governed by a board of trustees consisting of the following members:
   (a) Two members appointed by the board of county commissioners;
   (b) Three members appointed by the legislative authority of the most populous municipal corporation in the district;
   (c) Two members appointed by the legislative authority of the second most populous municipal corporation in the district;
   (d) Two members appointed by the board of township trustees of the township in the county that is most populous in its unincorporated area;
   (e) The county engineer;
   (f) One member appointed by the legislative authority of any township or municipal corporation that cannot otherwise appoint a member to the board pursuant to this section, and that is wholly or partially within the area of the transportation improvement district as the district was originally designated by the board of county commissioners;
   (g) If the area of a transportation improvement district is expanded by the board of county commissioners, the legislative authority of any township or municipal corporation that is wholly or partially within the area of expansion and that cannot otherwise appoint a member to the board pursuant to this section, with the consent of the board of trustees of the district, may appoint one member to the board;
   (h) One member appointed by the regional planning commission for the county, who shall be a nonvoting member of the board;
   (i) One member appointed at the discretion of the speaker of the house of representatives, who, if appointed, shall be a nonvoting member of the board and who may be a member of the house of representatives;
   (j) One member appointed at the discretion of the president of the senate, who, if appointed, shall be a nonvoting member of the board and who may be a member of the senate.

One of each of the appointments made by the board of county commissioners, the legislative authority of a municipal corporation, and the board of township trustees under divisions (C)(1)(a), (b), (c), and (d) of this section, shall be members of the chamber of commerce for the respective political subdivision.

Whenever the addition of members to the board of trustees of a transportation improvement district pursuant to division (C)(1)(f) or (g) of this section results in an even number of total voting members on the board, the board of trustees of the district may appoint an additional person to its membership to maintain an odd number of voting members.

(2) As an alternative to the structure prescribed in division (C)(1) of this section, a board of
county commissioners, by resolution, may elect that the transportation improvement district it creates be governed by a board of trustees consisting of the following members:

(a) Five members appointed by the board of county commissioners;

(b) One member appointed at the discretion of the speaker of the house of representatives, who, if appointed, shall be a nonvoting member of the board and who may be a member of the house of representatives;

(c) One member appointed at the discretion of the president of the senate, who, if appointed, shall be a nonvoting member of the board and who may be a member of the senate.

(D) Each appointed member of the board shall hold office for a term of two years but subject to removal at the pleasure of the authority that appointed the member. Members may be reappointed. Except as otherwise provided in this division, any vacancy on the board shall be filled in the same manner as the original appointment. Any vacancy on a board appointed under division (C)(1) of this section lasting longer than thirty days due to the failure of the legislative authority of a municipal corporation or a board of township trustees to make an appointment shall be filled by the board of trustees of the transportation improvement district.

(E) The voting members of the board shall elect from the entire board membership a chairperson, vice-chairperson, and secretary-treasurer. A majority of the voting members of the board constitutes a quorum, the affirmative vote of which is necessary for any action of the district. No vacancy in the membership of the board impairs the right of a quorum to exercise all the rights and perform all duties of the district.

(F) The board of county commissioners of the any county, the legislative authority of any municipal corporation, and the board of township trustees of any township that is part of the district, may make appropriations from moneys available to them and not otherwise appropriated, to pay costs incurred by the district in the exercise of its functions under this chapter, provided those moneys are available to use for that purpose.

(G) An organizational meeting of the board of trustees of a transportation improvement district created under this section shall be held at the time and place designated by the board member who has served the most years as a member of the board of county commissioners that created the transportation improvement district.

Sec. 5540.03. (A) A transportation improvement district may:

(1) Adopt bylaws for the regulation of its affairs and the conduct of its business;
(2) Adopt an official seal;
(3) Sue and be sued in its own name, plead and be impleaded, provided any actions against the district shall be brought in the court of common pleas of the county in which the principal office of the district is located, or in the court of common pleas of the county in which the cause of action arose, and all summonses, exceptions, and notices of every kind shall be served on the district by leaving a copy thereof at its principal office with the secretary-treasurer;
(4) Purchase, fund, finance, construct, maintain, repair, sell, exchange, police, operate, or lease projects;
(5) Issue either or both of the following for the purpose of providing funds to pay the costs of any project or part thereof:
(a) Transportation improvement district revenue bonds;
(b) Bonds pursuant to Section 13 of Article VIII, Ohio Constitution.

(6) Maintain such funds as it considers necessary;

(7) Direct its agents or employees, when properly identified in writing and after at least five days' written notice, to enter upon lands within its jurisdiction to make surveys and examinations preliminary to the location and construction of projects for the district, without liability of the district or its agents or employees except for actual damage done;

(8) Make and enter into all contracts and agreements necessary or incidental to the performance of its functions and the execution of its powers under this chapter;

(9) Employ or retain or contract for the services of consulting engineers, superintendents, managers, and such other engineers, construction and accounting experts, auditors, financial advisers, trustees, marketing, remarketing, and administrative agents, attorneys, and other employees, independent contractors, or agents as are necessary in its judgment and fix their compensation, provided all such expenses shall be payable solely from the proceeds of bonds or from revenues;

(10) Receive and accept from the federal or any state or local government, including, but not limited to, any agency, entity, or instrumentality of any of the foregoing, loans and grants for or in aid of the construction, maintenance, or repair of any project, and receive and accept aid or contributions from any source or person of money, property, labor, or other things of value, to be held, used, and applied only for the purposes for which such loans, grants, and contributions are made. Nothing in division (A)(10) of this section shall be construed as imposing any liability on this state for any loan received by a transportation improvement district from a third party unless this state has entered into an agreement to accept such liability.

(11) Acquire, hold, and dispose of property in the exercise of its powers and the performance of its duties under this chapter;

(12) Establish and collect tolls or user charges for its projects;

(13) Subject to section 5540.18 of the Revised Code, enter into an agreement with a contiguous board of county commissioners other than the board of county commissioners that created the transportation improvement district, for the district to exercise all or any portion of its powers with respect to a project that is located wholly or partially within the county that is party to the agreement;

(14) Cooperate with any governmental agencies in the planning, design, acquisition, construction, maintenance, funding, and financing of projects, including qualifying projects. In doing so, the district may enter into agreements with other governmental agencies to plan, design, acquire, construct, maintain, fund, and finance the projects or qualifying projects and to use pledged or assigned sales and use tax revenue to pay the debt service on qualifying bonds.

(15) Enter into an agreement with the board of county commissioners that created the transportation improvement district and with the boards of county commissioners of any contiguous group of counties to exercise all powers of the district with respect to a project that is both of the following:

(a) Located partially or wholly within any county that is a party to the agreement;

(b) Partially funded with federal money.

(16) Do all acts necessary and proper to carry out the powers expressly granted in this chapter.
(B)(1) Chapters 123., 124., 125., and 153., and sections 9.331 to 9.335 and 307.86 of the Revised Code do not apply to contracts or projects of a transportation improvement district.

(2) A transportation improvement district is subject to sections 4115.03 to 4115.21 and 4115.99 of the Revised Code, unless the amount of state or local government funds, including, but not limited to, those provided by any agency, entity, or instrumentality of the state or a local government as described in division (A)(10) of this section received for the contract or project, is, in the aggregate, less than the amounts described in or calculated under section 4115.03 of the Revised Code.

Sec. 5540.06. (A) The board of trustees of a transportation improvement district may provide by resolution for the issuance, at one time or from time to time, of bonds of the district for the purpose of paying all or any part of the cost of any one or more projects. The bond service charges shall be payable solely from pledged revenues pledged for such payment pursuant to the applicable bond proceedings. The bonds of each issue shall be dated, shall bear interest at a rate or rates or at variable rates, and shall mature or be payable at such time or times, with a final maturity not to exceed thirty years from their date or dates, all as determined by the board in the bond proceedings. The board shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of bond service charges.

(B) The bonds shall be signed by the chairperson or vice-chairperson of the board or by the facsimile signature of that officer, the official seal of the district or a facsimile thereof may be affixed thereto or printed thereon and attested by the secretary-treasurer of the district, which may be by facsimile signature, and any coupons attached thereto shall bear the facsimile signature of the chairperson or vice-chairperson of the board. In case any officer whose signature, or a facsimile of whose signature, appears on any bonds or coupons ceases to be such officer before delivery of the bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if the officer had remained in office until such delivery.

(C) Subject to the bond proceedings and provisions for registration, the bonds shall have all the qualities and incidents of negotiable instruments under Title XIII of the Revised Code. The bonds may be issued in such form or forms as the board determines, including without limitation coupon, book entry, and fully registered form, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the exchange of bonds between forms. The board may sell such bonds by competitive bid on the best bid after advertisement or request for bids or by private sale in the manner, and for the price, it determines to be for the best interest of the district.

(D) The proceeds of the bonds of each issue shall be used solely for the payment of the costs of the project or projects for which the bonds were issued, and shall be disbursed in such manner and under such restrictions as the board provides in the bond proceedings.

(E) Prior to the preparation of definitive bonds, the board may, under like restrictions, issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery. The board may provide for the replacement of any mutilated, stolen, destroyed, or lost bonds.
(F) Sections 9.98 to 9.983 of the Revised Code apply to the bonds.

(G) The bond proceedings shall provide, subject to the provisions of any other applicable bond proceedings, for the pledge to the payment of bond service charges and of any costs of or relating to credit enhancement facilities of all, or such part as the board may determine, of the pledged revenues and the applicable special fund or funds, which pledges may be made to secure the bonds on a parity with bonds theretofore or thereafter issued if and to the extent provided in the bond proceedings. Every pledge, and every covenant and agreement with respect thereto, made in the bond proceedings may in the bond proceedings be extended to the benefit of the owners and holders of bonds and to any trustee and any person providing a credit enhancement facility for those bonds, for the further security for the payment of the bond service charges and credit enhancement facility costs.

(H) The bond proceedings may contain additional provisions as to:

(1) The redemption of bonds prior to maturity at the option of the board or of the bondholders or upon the occurrence of certain stated conditions, and at such price or prices and under such terms and conditions as are provided in the bond proceedings;

(2) Other terms of the bonds;

(3) Limitations on the issuance of additional bonds;

(4) The terms of any trust agreement securing the bonds or under which the same may be issued;

(5) Any or every provision of the bond proceedings being binding upon the board and state agencies, or other person as may from time to time have the authority under law to take such actions as may be necessary to perform all or any part of the duty required by such provision;

(6) Any provision that may be made in a trust agreement;

(7) Any other or additional agreements with the holders of the bonds, or the trustee therefor, relating to the bonds or the security for the bonds, including agreements for credit enhancement facilities.

(I) Any holder of bonds or a trustee under the bond proceedings, except to the extent that the holder's or trustee's rights are restricted by the bond proceedings, may by any suitable form of legal proceedings, protect and enforce any rights under the laws of this state or granted by the bond proceedings. Those rights include the right to compel the performance of all duties of the board required by this chapter or the bond proceedings; to enjoin unlawful activities; and in the event of default with respect to the payment of any bond service charges on any bonds or in the performance of any covenant or agreement on the part of the board contained in the bond proceedings, to apply to a court having jurisdiction of the cause to appoint a receiver to receive and administer the revenues and the pledged revenues which are pledged to the payment of the bond service charges on such bonds or that are the subject of the covenant or agreement, with full power to pay, and to provide for payment of, bond service charges on such bonds, and with such powers, subject to the direction of the court, as are accorded receivers in general equity cases, excluding any power to pledge additional revenue or receipts or other income, funds, or moneys of the board to the payment of such bond service charges and excluding the power to take possession of, mortgage, or cause the sale or otherwise dispose of any project or other property of the board.

(J) Each duty of the board and the board's officers and employees, undertaken pursuant to the bond proceedings, is hereby established as a duty of the board, and of each such officer, member, or
employee having authority to perform the duty, specifically enjoined by law resulting from an office, trust, or station within the meaning of section 2731.01 of the Revised Code.

(K) The board's officers or employees are not liable in their personal capacities on any bonds issued by the board or any agreements of or with the board relating to those bonds.

(L) The bonds are lawful investments for banks, savings and loan associations, credit union share guaranty corporations, trust companies, trustees, fiduciaries, insurance companies, including domestic for life and domestic not for life, trustees or other officers having charge of sinking and bond retirement or other funds of the state or its political subdivisions and taxing districts, the commissioners of the sinking fund of the state, the administrator of workers' compensation, the state teachers retirement system, the public employees retirement system, the school employees retirement system, and the Ohio police and fire pension fund, notwithstanding any other provisions of the Revised Code or rules adopted pursuant thereto by any state agency with respect to investments by them, and also are acceptable as security for the repayment of the deposit of public moneys.

(M) Provision may be made in the applicable bond proceedings for the establishment of separate accounts in the bond service fund and for the application of such accounts only to the specified bond service charges pertinent to such accounts and bond service fund, and for other accounts therein within the general purposes of such fund.

(N) The board may pledge all, or such portion as it determines, of the pledged revenues to the payment of bond service charges, and for the establishment and maintenance of any reserves and special funds, as provided in the bond proceedings, and make other provisions therein with respect to pledged revenues, revenues, and net revenues as authorized by this chapter, which provisions shall be controlling notwithstanding any other provisions of law pertaining thereto.

(O) The board may pledge all, or such portion as it determines, of the pledged or assigned sales and use taxes received from a qualifying regional transit authority to the payment of debt service charges on any qualifying bonds issued by the transportation improvement district to fund or finance qualifying projects under section 306.353 of the Revised Code.

Sec. 5543.19. In determining whether construction or reconstruction, including widening and resurfacing, of roads may be undertaken by force account, the county engineer shall first cause to be made an estimate of the cost of such work using the force account project assessment form developed by the auditor of state under section 117.16 of the Revised Code. When the total estimated cost of the work exceeds thirty-seven thousand dollars per mile, the county commissioners shall invite and receive competitive bids for furnishing all the labor, materials, and equipment necessary to complete the work in accordance with sections 307.86 to 307.92 of the Revised Code.

(B) The county engineer may, when authorized by the board of county commissioners and not required by this section or other law to use competitive bidding, employ such laborers and vehicles, use such county employees and property, lease such implements and tools, and purchase such materials as are necessary in the construction, reconstruction, improvement, maintenance, or
repair of bridges and culverts by force account.

In determining whether such construction, reconstruction, improvement, maintenance, or repair of bridges or culverts may be undertaken by force account, the county engineer shall first cause to be made an estimate of the cost of such work using the force account project assessment form. When the total estimated cost of the work exceeds one-two hundred thirty-three thousand dollars, the board of county commissioners shall invite and receive competitive bids for furnishing all the labor, materials, and equipment necessary to complete the work, in accordance with sections 307.86 to 307.92 of the Revised Code. The county engineer shall obtain the approval required by section 5543.02 of the Revised Code.

(C) On the first day of July of every odd-numbered year beginning in 2021-2024, the threshold amounts established in this section shall increase by an amount not to exceed the lesser of three-five per cent, or the percentage amount of any increase in the department of transportation's construction cost index as annualized and totaled for the prior two calendar years. The director of transportation shall notify each appropriate county engineer of the increased amount.

(D) "Force account," as used in this section means that the county engineer will act as contractor, using labor employed by the engineer using material and equipment either owned by the county or leased or purchased in compliance with sections 307.86 to 307.92 of the Revised Code and excludes subcontracting any part of such work unless done pursuant to sections 307.86 to 307.92 of the Revised Code.

Sec. 5575.01. (A) In the maintenance and repair of roads, the board of township trustees may proceed either by contract or force account, but, unless the exemption specified in division (C) of this section applies, if the board wishes to proceed by force account, it first shall cause the county engineer to complete the force account assessment form developed by the auditor of state under section 117.16 of the Revised Code. Except as otherwise provided in sections 505.08 and 505.101 of the Revised Code, when the board proceeds by contract, the contract shall, if the amount involved exceeds forty-five one hundred five thousand dollars, be let by the board to the lowest responsible bidder after advertisement for bids once, not later than two weeks, prior to the date fixed for the letting of the contract, in a newspaper of general circulation within the township. If the amount involved is forty-five one hundred five thousand dollars or less, a contract may be let without competitive bidding, or the work may be done by force account. Such a contract shall be performed under the supervision of a member of the board or the township road superintendent.

(B) Before undertaking the construction or reconstruction of a township road, the board shall cause to be made by the county engineer an estimate of the cost of the work, which estimate shall include labor, material, freight, fuel, hauling, use of machinery and equipment, and all other items of cost. If the board finds it in the best interest of the public, it may, in lieu of constructing the road by contract, proceed to construct the road by force account. Except as otherwise provided under sections 505.08 and 505.101 of the Revised Code, where the total estimated cost of the work exceeds fifteen thirty-five thousand dollars per mile, the board shall invite and receive competitive bids for
furnishing all the labor, materials, and equipment and doing the work, as provided in section 5575.02 of the Revised Code, and shall consider and reject them before ordering the work done by force account. When such bids are received, considered, and rejected, and the work is done by force account, the work shall be performed in compliance with the plans and specifications upon which the bids were based.

(C) Force account assessment forms are not required under division (A) of this section for road maintenance or repair projects of less than fifteen thousand dollars, or under division (B) of this section for road construction or reconstruction projects of less than five thousand dollars per mile, one-third of the applicable force account limit.

(D) On the first day of July of every odd-numbered year beginning in 2021, 2024, the threshold amounts established in divisions (A) and (B) of this section shall increase by an amount not to exceed the lesser of three-five per cent, or the percentage amount of any increase in the department of transportation’s construction cost index as annualized and totaled for the prior two calendar years. The director of transportation shall notify each appropriate county engineer of the increased amount.

(E) All force account work under this section shall be done under the direction of a member of the board or the township road superintendent.

Sec. 5577.044. (A) Notwithstanding sections 5577.02 and 5577.04 of the Revised Code, a vehicle fueled solely by compressed natural gas or liquid natural gas or powered primarily by means of an electric battery may exceed by not more than two thousand pounds the gross vehicle weight provisions of sections 5577.01 to 5577.09 of the Revised Code or the axle load limits of those sections.

(B) If a vehicle described in division (A) of this section exceeds the weight provisions of sections 5577.01 to 5577.09 of the Revised Code by more than the allowance provided for in division (A) of this section, both of the following apply:

(1) The applicable penalty prescribed in section 5577.99 of the Revised Code;

(2) The civil liability imposed by section 5577.12 of the Revised Code.

(C) Division (A) of this section does not apply to the operation of a vehicle on a highway, road, or bridge that is subject to reduced maximum weights under section 4513.33, 5577.07, 5577.071, 5577.08, 5577.09, or 5591.42 of the Revised Code.

Sec. 5709.50. (A) The governing board of a regional transportation improvement project that grants a tax exemption under section 5709.48 of the Revised Code or enters into one or more voluntary agreements imposing assessments under section 5709.481 of the Revised Code shall establish a regional transportation improvement project fund into which shall be deposited service payments in lieu of taxes distributed under section 5709.49 of the Revised Code and assessments collected pursuant to such agreements. Money in the regional transportation improvement project fund shall be used by the governing board for the purposes described in the resolution creating the transportation financing district. Money in the regional transportation improvement project fund shall be administered by the governing board in accordance with the requirements of section 5595.08 of the Revised Code and may be invested as provided in section 5595.09 of the Revised Code.

(B) The regional transportation improvement project fund is dissolved by operation of law upon the dissolution of the associated regional transportation improvement project under section
5595.13 of the Revised Code. Any incidental surplus remaining in the fund, to the extent unencumbered, shall be divided and distributed by the county treasurer of the most populous county in which the district is located as follows:

(1) To the general funds of the subdivisions and taxing units in which the district is located, an amount equal to the surplus revenue multiplied by a fraction, the numerator of which is the amount of service payment revenue deposited to the fund after the most recent collection of property taxes and payments in lieu of taxes, and the denominator of which is the total amount deposited to the fund after the most recent collection of property taxes and payments in lieu of taxes. This amount shall be divided proportionally based on the property tax levy revenue foregone by each such subdivision and taxing unit due to the exemption of improvements to property within the district at the most recent collection of service payments in lieu of taxes. The division of revenue shall account for amounts returned to subdivisions and taxing units through compensation agreements entered into under division (E) of section 5709.48 of the Revised Code. The amount distributed to each subdivision or taxing unit shall be apportioned among its funds as if that amount had been levied and collected as taxes and distributed in the most recent settlement of taxes.

(2) To the owners of parcels subject to a special assessment under section 5709.481 of the Revised Code, all remaining surplus revenue. This amount shall be divided proportionally based on the amount of the assessment levied against each such parcel at the most recent collection of such assessments. Owners of parcels that are delinquent in paying an assessment imposed by an agreement under section 5709.481 of the Revised Code may not receive surplus revenue under this division. The share of surplus revenue that such owner or owners would have otherwise received shall be divided proportionally among the owners of nondelinquent parcels.

These appropriations are the source of funds pledged for bond service charges on related obligations issued under Chapter 154. of the Revised Code.

Should the appropriation in appropriation item 770003, Transportation Facilities Lease Rental Bond Payments, exceed the associated debt service payments in either fiscal year of the biennium ending June 30, 2025, the balance may be transferred to appropriation item 772421, Highway Construction – State, 773431, Highway Maintenance – State, or 779491, Administration – State, upon the written request of the Director of Transportation and with the approval of the Director of Budget and Management. The study shall collect data at specific locations, as determined by the Director of Transportation, to understand incorrect driving patterns and other factors that lead to wrong way driving. The data may be used to propose safety interventions that mitigate the hazards of wrong way driving or prevent its occurrence.

To that extent, the appropriation takes effect immediately when this act becomes law. Conversely, the appropriation is subject to the referendum insofar as a contemplated expenditure authorized thereby is wholly or partly not to meet a current expense within the meaning of Ohio Constitution, Article II, Section 1d. To that extent, the appropriation takes effect on the ninety-first day after this act is filed with the Secretary of State.

The General Assembly, applying the principle stated in division (B) of section 1.52 of the Revised Code that amendments are to be harmonized if reasonably capable of simultaneous operation, finds that the composite is the resulting version of the section in effect prior to the effective date of the section as presented in this act.
